GM Corner

As another year is coming to an end, it is time for reflection on the projects of the past year. This year has been a full one for the staff at Nebraska.gov.

Many agencies have worked with Nebraska.gov to create new online services for the citizens and businesses of Nebraska, as well as beyond the state borders.

Nebraska.gov partnered with agencies to launch new websites and redesigns of previously existing websites. Also, there were numerous enhancements made to existing applications.

The staff at Nebraska.gov is proud to assist with the expansion of online services.

We thank everyone for helping us make 2008 such a success. We look forward to the New Year and the opportunities that are waiting.

Brent Hoffman

Driving Adoption –

Nebraska Liquor Control Commission

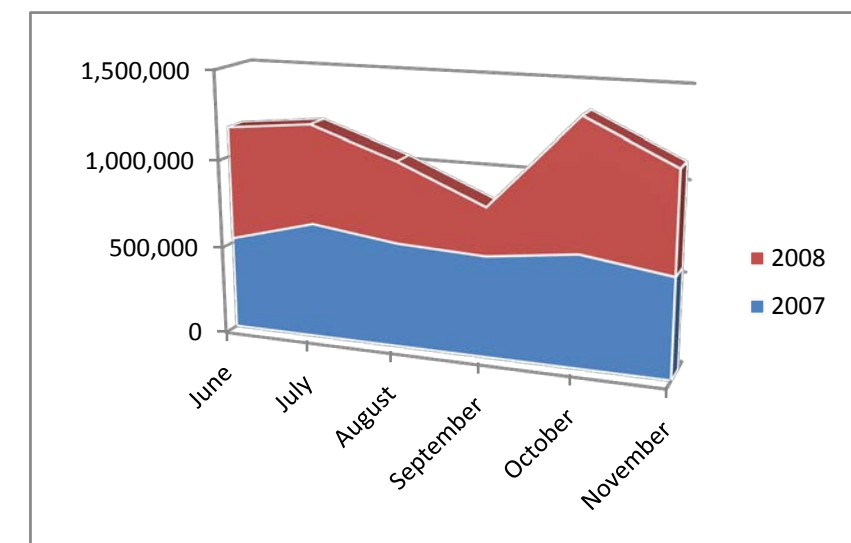

Nebraska Liquor Control Commission requires wholesalers to file monthly reports and pay taxes, based on the reports.

For November 2008:

69% of the beer wholesalers filed their monthly reports online

Of those beer wholesalers that owed taxes, 100% paid their taxes by the online payment system.

Business One Stop

In 2007, a group of individuals representing many different state agencies worked together to create a centralized repository of information for those interested in forming a Nebraska Business. Now one year later, Phase II of the project has been completed, and the Business One Stop is a step closer to the State's ultimate goal of having it become a central filing center as well.

In coordination with the Office of the CIO, and the Secretary of State's Business Division, who will have the first online applications to operate off of the Business One Stop profiles, users now have the option to create a basic account. They can use this account to save their business start up checklist, and to file online. Nebraska.gov will continue to work on expanding Business One Stop with any agency that is interested in integrating online business forms.

Nebraska.gov has worked with the Department of Motor Vehicles to introduce a single place to locate online DMV services. People will now be able to go to www.clickdmv.ne.gov to find the online services.

Driver License Services, Vehicle Services and Motor Carrier Services are featured on the new site. As more online programs are added, the site will include the new services.

The newest application to be added will be Motor Vehicle Registration Renewals. The renewal notices mailed from the county treasurers will list the new website on the postcard.

Board of Public Accountancy

A new look has been created for the License and Disciplinary Searches available on the website for the Board.

Online License Renewals

For the year to date, 337 Salesperson and Broker Real Estate Licenses have been renewed online.

There have been 500 Electrician Licenses renewed online for the year to date.

A Rave Review: From A User on the Engineers and Architects

"Your online license renewal system is excellent."

Feedback provided by an out of state engineer renewing his Nebraska license with the Board of Engineers and Architects:

(Over 2000 professionals have already submitted their license renewals online this year, and over \$200,000 has been processed for the Board.)
