

Proposed Rule Changes for April 13, 2016 Racing Commission Meeting

~~2.004.02~~ Racing patrons and licensees may utilize public telephones or private portable telephones or other means of communication only in accordance with the following restrictions. From one hour prior to the first post until the results of the last race are official, unless otherwise specifically authorized by the commission or by the association in compliance with these rules, no person shall convey or receive:

~~a) messages concerning the placing of any wager, or odds or probable pays on any wager, or~~

~~b) messages regarding the results of any race until such results are official.~~

~~2.004.03~~ Races may be broadcast or televised live only with the prior approval of the Commission. A written request, including a list of races to be televised or broadcast, must be submitted to the commission. Complete results and pay-offs can be announced, broadcast, and televised when the race has been declared official. Any person or station violating any of these rules will be immediately reported to the Federal Communications Commission (F.C.C.) and any approval which may have been granted by the Commission shall immediately be cancelled.

~~9.001.14~~ If a horse's name is changed, his new name shall be registered with the Jockey Club (New York) and no entry shall be accepted until such time as the new certificate of registration has been issued by the Jockey Club (New York).

~~9.001.29~~ A horse is permitted to race with phenylbutazone **one** of three non-steroidal anti-inflammatory drugs (NSAIDs) in its system. Phenylbutazone, Flunixin, or Ketoprofen are approved for use pursuant to rule 14.002 and subsections thereafter and must be declared on the entry card at the time of entry. An NSAID shall not be administered in any form, or be available for any horse through feed or other substances, within the twenty four hours prior to the running of a horse in a race. The level of phenylbutazone shall not exceed 5.0 ug/ml in blood or plasma samples taken following a race (re: rule 18.010). The presence of more than one NSAID is not permitted in a horse's system on race day.

~~9.001.37~~ No more than two horses of the same ownership or interest shall be entered in a purse race, and both may start, except:

~~(1) When making an entry, the trainer must express a preference. In no case may two horses start as an entry even though uncoupled for wagering purposes if it deprives a single entry from starting, however, uncoupled entries shall not be preferred over coupled entries, stakes and added money races excepted. (See Chapter 9.001.39).~~

~~(2) Horses remaining eligible in stakes but eliminated because of these rules will cause a refund of all fees paid for that horse. (See Chapter 16.001.08.)~~

9.001.37 No more than two horses having common ties through ownership or training may be entered in an overnight race, except:

(1) When making a double entry, the trainer must express a preference.

~~**9.001.38** Double entries of the same ownership may not be uncoupled for wagering purposes. However, with permission of the stewards, double entries of separate ownerships and trained by the same trainer, may be uncoupled for wagering purposes.~~

9.001.38 Entries of the same owner or the same trainer may not be uncoupled for wagering purposes without the permission of the Stewards.

10.001.01 Each business or organization involved in food and beverage concessions during a race meet of ten (10) or less live racing days will be licensed pursuant to the following procedures:

1. The organization or business running the concession will be required to obtain a Nebraska Racing Commission Concession Operator License. The person responsible for the concession operation will complete a license application;

2. Individual employees or volunteers who work the concession during the race meet must be listed, or register when they report for work, on forms provided by the Racing Commission. The individuals will be deemed to be licensed as part of the Concession Operator License when their name is included on the list. The list will be attached to the Concession Operator License Application.

10.001.02 A person licensed by the Commission as a jockey or veterinarian may not be licensed in another capacity.

10.008.01 Upon notice the commission and the stewards/judges shall enforce rulings from other pari-mutuel jurisdictions regarding license suspensions, revocation or eligibility of contestants.

10.008.02

(A) Persons subject to rulings in other jurisdictions shall have the right to request a hearing before the Commission to show cause why such ruling should not be enforced in this jurisdiction.

(B) Any request for such hearing must clearly set forth in writing the reasons for the appeal.

10.008.03 Licensees must disclose to the stewards and the Commission any suspensions or revocations from any other jurisdiction while his/her Nebraska License is in effect no later than seventy-two (72) hours after the ruling is issued.

10.009 All licensed personnel ~~must wear~~ ~~shall carry~~ their card ~~with them~~ at all times and shall be held responsible for the safekeeping of it. No license shall be transferable and no duplicate cards shall be issued except upon payment of a fee of ~~five~~ ten dollars.

~~**11.001.14** A jockey's fee shall be considered earned when the jockey is weighted out by the clerk of scales. The fee shall not be considered earned if the jockey, of his or her own free will, takes off a mount, where injury to the horse or rider is not involved. Any condition or consideration not covered by the above ruling shall be at the discretion of the stewards.~~

11.001.14 A jockey's fee shall be considered earned when the jockey is weighed out by the clerk of scales. In the event an owner or trainer elects to remove a jockey from his or her mount after naming a rider at the time of the draw, the stewards may require a double jockey fee to be paid. The fee to be paid is equal to that earned by the jockey who rode the horse. The fee shall not be considered earned when a jockey(s), of their own free will, take themselves off their mounts, where injury to the horse or rider is not involved. Any conditions or considerations not covered by the above rule shall be at the discretion of the stewards. All jockey protests must be filed prior to the race.

18.001.02

Association of Racing Commissioners International Drug Testing Standards and Practices Program Uniform Classification Guidelines for Foreign Substances (as Revised ~~August 3, 2003~~ January 2014)

The following outline describes the types of substances placed in each category. This list shall be publicly posted in the offices of the official veterinarian and the racing secretary.

Class 1

Opiates, opium derivatives, synthetic opioids, psychoactive drugs, amphetamines and U.S. Drug Enforcement Agency (DEA) scheduled I and II drugs. Also found in this class are drugs which are potent stimulants of the nervous system. Drugs in this class have no generally accepted medical use in the racehorse and their pharmacological potential for altering the performance of a race is very high.

Class 2

Drugs in this category have a high potential for affecting the outcome of a race. Most are not generally accepted as therapeutic agents in the racehorse. Many are products intended to alter consciousness or the psychic state of humans, and have no approved or indicated use in the horse. Some, such as injectable local anesthetics, have legitimate use in equine medicine, but should not be found in a racehorse. The following groups of drugs are in this class:

- (a) Opiate partial agonists, or agonist-antagonists;
- (b) Non-opiate psychotropic drugs, which may have stimulant, depressant, analgesic or neuroleptic effects;
- (c) Miscellaneous drugs which might have a stimulant effect on the central nervous system (CNS);
- (d) Drugs with prominent CNS depressant action;
- (e) Antidepressant and antipsychotic drugs, with or without prominent CNS stimulatory or depressant effects;
- (f) Muscle blocking drugs which have a direct neuromuscular blocking action;
- (g) Local anesthetics which have a reasonable potential for use as nerve blocking agents (except procaine); and
- (h) Snake venoms and other biologic substances, which may be used as nerve blocking agents.

Class 3

Drugs in this class may or may not have an accepted therapeutic use in the horse. Many are drugs that affect the cardiovascular, pulmonary and autonomic nervous systems. They all have the potential of affecting the performance of a racehorse. The following groups of drugs are in this class:

- (a) Drugs affecting the autonomic nervous system which do not have prominent CNS effects, but which do have prominent cardiovascular or respiratory system effects (bronchodilators are included in this class);
- (b) A local anesthetic which has nerve blocking potential but also has a high potential for producing urine residue levels from a method of use not related to the anesthetic effect of the drug (procaine);
- (c) Miscellaneous drugs with mild sedative action, such as the sleep inducing antihistamines;
- (d) Primary vasodilating/hypotensive agents; and
- (e) Potent diuretics affecting renal function and body fluid composition.
- (f) Anabolic and/or androgenic steroids and other drugs.

Class 4

This category is comprised primarily of therapeutic medications routinely used in racehorses. These may influence performance, but generally have a more limited ability to do so. Groups of drugs assigned to this category include the following:

- (a) Non-opiate drugs which have a mild central analgesic effect;
- (b) Drugs affecting the autonomic nervous system which do not have prominent CNS, cardiovascular or respiratory effects
 - (i) Drugs used solely as topical vasoconstrictors or decongestants
 - (ii) Drugs used as gastrointestinal antispasmodics
 - (iii) Drugs used to void the urinary bladder
 - (iv) Drugs with a major effect on CNS vasculature or smooth muscle of visceral organs.
 - ~~(v) Antihistamines which do not have a significant CNS depressant effect This does not include H1 blocking agents, which are listed in Class 5);~~
- (c) Antihistamines which do not have a significant CNS depressant effect This does not include H1 blocking agents, which are listed in Class 5);
- ~~(d)~~ (d) Mineralocorticoid drugs;
- ~~(e)~~ (e) Skeletal muscle relaxants;
- ~~(f)~~ (f) Anti-inflammatory drugs--those that may reduce pain as a consequence of their anti-inflammatory actions, which include:
 - (i) Non-Steroidal Anti-Inflammatory Drugs (NSAIDs);
 - (ii) Corticosteroids (glucocorticoids); and
 - (iii) Miscellaneous anti-inflammatory agents.
- ~~(f) Anabolic and/or androgenic steroids and other drugs;~~
- (g) Less potent diuretics;
- (h) Cardiac glycosides and antiarrhythmics including:
 - (i) Cardiac glycosides;

- (ii) Antirhythmic agents (exclusive of lidocaine, bretylium and propranolol); and
- (iii) Miscellaneous cardiotoxic drugs.
- (i) Topical Anesthetics--agents not available in injectable formulations;
- (j) Antidiarrheal agents; and
- (k) Miscellaneous drugs including:
 - (i) Expectorants with little or no other pharmacologic action;
 - (ii) Stomachics; and
 - (iii) Mucolytic agents.

Class 5

Drugs in this category are therapeutic medications for which concentration limits have been established as well as certain miscellaneous agents. Included specifically are agents, which have very localized action only, such as anti-ulcer drugs and certain anti-allergenic drugs. The anticoagulant drugs are also included.

18.019 The use of hypodermic needles is forbidden, except when used by a veterinarian licensed by the State of Nebraska or veterinarian technicians approved by the Official Veterinarian who are working in the test barn or the written permission of either the stewards or the Racing Commission. Possession of such equipment or any accessories thereto is forbidden unless permission has been secured from the stewards or the authorized representative of the commission, in writing. (See Statutes 2-1217 and 2-1218.)

18.023.03 The possession or use of blood doping agents, including but not limited to those listed below, on the premises of a facility under the jurisdiction of the commission is forbidden:

- 1) Erythropoietin;
- 2) ~~Darbepoietin~~; Darbepoetin
- 3) Oxyglobin®;
- 4) Hemopure®.

23.001.04 PARI-MUTUEL TICKET SALES AND CANCELLATIONS

(1) Pari-mutuel tickets shall not be sold by anyone other than an association licensed to conduct pari-mutuel wagering.

(2) No pari-mutuel ticket may be sold on a contest for which wagering has already been closed and no association shall be responsible for ticket sales entered into but not completed by issuance of a ticket before the totalisator is closed for wagering on such contest.

(3) Claims pertaining to a mistake on an issued or unissued ticket must be made by the bettor prior to leaving the seller's window.

(4) Payment on winning pari-mutuel wagers shall be made on the basis of the order of finish as purposely posted and declared "official". Any subsequent change in the order of finish or award of purse money as may result from a subsequent ruling by the stewards or Commission shall in no way affect the pari-mutuel payoff.
