002.03 HANDICAPPING MALOCCLUSION. A handicapping malocclusion is an improper alignment of the teeth due to one of two conditions:

- (A) Craniofacial birth defect that is affecting the occlusion; or
- (B) Mutilated and severe malocclusions.

002.04 OCCLUSAL ORTHOTIC DEVICE. Splints that are provided for treatment of temporomandibular joint dysfunction.

002.05 SPECIAL NEEDS. For the purposes of dental services, a client with special needs is a client who is unable to care for his or her mouth properly on his or her own because of a disabling condition.

002.06 TELEDENTISTRY. Teledentistry is the use of technology, including digital radiographs, digital photos and videos, and electronic health records, to facilitate delivery of oral healthcare and oral health education services from a provider in one location to a patient in a physically different location. Teledentistry is to be used for the purposes of evaluation, diagnosis, or treatment.

003. PROVIDER REQUIREMENTS.

003.01 GENERAL PROVIDER REQUIREMENTS. Providers of dental services must comply with all applicable provider participation requirements codified in 471 Nebraska Administrative

Code (NAC) 2 and 3. In the event that provider participation requirements in 471 NAC 2 or 3 conflict with requirements outlined in this chapter, the individual provider participation requirements in this chapter will govern.

003.02 PROVIDER SPECIFIC REQUIREMENTS. If services are provided in another state, the dentist or dental hygienist must be licensed in that state, must practice within his or her scope of practice as defined by the licensing laws for that state, and must be enrolled in Medicaid by complying with the provider agreement requirements included in this chapter.

003.02(A) PROVIDER AGREEMENT. Providers of dental services must complete and sign Form MC-19, Service Provider Agreement, and submit the completed form to the Department for approval to participate in Medicaid.

#### 004. SERVICE REQUIREMENTS.

##### 004.01 GENERAL REQUIREMENTS.

004.01(A) MEDICAL NECESSITY. Medicaid incorporates the definition of medical necessity from 471 NAC 1 as if fully rewritten herein. Services and supplies that do not meet the 471 NAC 1 definition of medical necessity are not covered. Services may be subject to the specific limitations or prior authorization requirements as listed in this chapter.

004.01(A)(i) DOCUMENTATION OF MEDICAL NECESSITY. Documentation of medical necessity is required on all procedures. The documentation should be in the client's dental chart which must be available to the Department upon request.

004.01(B) PRIOR AUTHORIZATION. Specific documentation must be submitted along with each prior authorization request. Submitted documentation that is inadequate, or does not otherwise meet the criteria for review, may be disapproved, or returned for additional information or correction. The provider must receive prior authorization before the following services:

- (i) Crowns;
- (ii) Periodontal scaling and root planning;
- (iii) Periodontal maintenance procedure;
- (iv) Complete, immediate, and interim dentures, maxillary and mandibular;
- (v) Partial resin base, maxillary and mandibular;
- (vi) Flipper partial dentures, maxillary and mandibular; and
- (vii) Orthodontic treatment.

004.01(B)(i) REQUEST FOR PRIOR AUTHORIZATION. To request prior authorization for a proposed dental pre-treatment plan or covered service, the dentist must submit the request using one of the following options:

- (1) Electronically using the standard Health Care Services Request for Review and Response; or
- (2) Submission of a dental claim form and required documentation by mail to the Department.

004.01(B)(ii) ADULT EMERGENCY DENTAL SERVICES AND EXTENSIVE TREATMENT CIRCUMSTANCES. The request must clearly indicate that it is either an emergency services or extensive treatment circumstances request, and be accompanied by sufficient documentation to determine the emergent medical necessity. In the event that the service must be rendered immediately, the dental provider must submit a request for coverage, post treatment, with documentation of the emergent medical necessity, for payment review.

004.01(C) SERVICES FOR INDIVIDUALS AGE 21 AND OLDER. Dental coverage is limited to \$750 per fiscal year. The annual limit is calculated at the Medicaid dental fee schedule rate for the treatment provided or on the all-inclusive encounter rate paid to Indian health service (IHS) facilities or federally qualified health centers (FQHC) facilities.

004.01(C)(i) PROVIDER RESPONSIBILITY AND CLIENT RESPONSIBILITY REGARDING THE YEARLY DENTAL LIMIT. Providers must inform a client before treatment is provided of the client's obligation to pay for a service if the client's annual limit has already been reached or if the amount of treatment proposed will cause the client's annual limit to be exceeded.

004.01(C)(ii) EMERGENCY DENTAL SERVICES. Adult dental services provided in an emergency situation are not subject to the annual per fiscal year limits imposed in this chapter. Adult dental services provided in an emergency situation will be considered for coverage on a case-by-case basis. Only the most limited service(s) needed to correct the emergency condition will be covered. Medicaid will cover emergency dental services that were not prior authorized. The provider must submit a completed coverage request with supporting documentation of the emergent nature of the services provided. Medicaid considers the following conditions to be emergent:

- (2) Extractions and necessary treatment for repair of traumatic injury; and
- (3) Full mouth extractions as necessary for catastrophic illness such as an organ transplant, chemotherapy, severe heart disease, intra-oral radiation workup, or other life threatening illnesses.

004.01(C)(iii) DENTURES AND EXTENSIVE TREATMENT CIRCUMSTANCES. Medicaid will review, and consider coverage of, services that cause the client to exceed the annual coverage limit, where the client is in need of dentures and extensive treatment in a hospital setting due to a disease or medical condition, or the client is disabled and it is in the best interest of the client's overall health to complete the treatment in a single setting. A prior authorization request must be submitted with medical necessity documentation.
