

The Nebraska Department of Transportation (NDOT) has commenced rulemaking and will hold a public hearing concerning repealing or revising the following proposed regulations.

17 NAC 1, Public Use Airport/Heliport Licensing

• During an extensive review of all NDOT regulations, it was determined that this regulation would benefit from a revision pertaining to heliports. This includes removing the regulation language for private-use heliports, as the Division's statutory authority to register private-use heliports is questionable.

410 NAC 7, The Accommodation of Mailboxes and Newspaper Delivery Boxes and Support Posts on Highway Rights-Of-Way

• NDOT is transferring this regulation to Title 412 due to a change in ownership within the agency. Because of this action, NDOT is required by law to repeal the chapter and re-adopt the regulation as a new chapter within the new title.

<u>412 NAC 2, The Accommodation of Mailboxes and Newspaper Delivery Boxes and</u> <u>Support Posts on Highway Rights-Of-Way</u>

• NDOT is re-adopting this regulation after repealing it from 410 NAC 7 and updating it to reflect current best practices. These practices include both State and Federal changes that have been implemented since the regulation last received a substantive revision.

414 NAC 1, Nebraska Scenic Byways Program

• NDOT is updating this regulation, originally adopted in 1996, to remove portions of the rule which are no longer applicable.

428 NAC 3, Instruction Manual for Annual Reporting of One- and Six-Year Plans for Highway, Road and Street Improvements

• NDOT is proposing to repeal this regulation in its entirety. The regulation is no longer necessary due to NDOT- and Board-sponsored legislation (LB 82) passed in 2019 by the Legislature. The Legislation requires local political subdivisions to certify to the NBCS their compliance with the law rather than submit the one- and six-year plans to the NBCS for NBCS staff to review. Because of this change in law, 428 NAC 3 is obsolete and unnecessary.

428 NAC 3, Instruction Manual for Standardized System of Annual Reporting Road, Street, and Highway Programs as adopted by the Board of Public Roads Classifications and Standards and approved by the Auditor of Public Accounts

• NDOT is proposing to repeal this regulation in its entirety. The regulation is no longer necessary due to NDOT- and Board-sponsored legislation (LB 82) passed in 2019 by the Legislature. The Legislation requires local political subdivisions to certify to the NBCS their compliance with the law rather than submit the SSAR report to the NBCS for NBCS staff to review. Because of this change in law, 428 NAC 3 is obsolete and unnecessary.

Interested persons are invited to attend the public hearing. Comments and recommendations may be presented orally or in writing at the hearing. They may also be mailed, faxed, or e-mailed prior to the hearing or until the close of the public comment period (October 31, 2020). Pre- and post-hearing comments should be directed in writing to NDOT's External Affairs Manager, Sarah Soula, PO Box 94759, Lincoln, Nebraska 68509-4759; sarah.soula@nebraska.gov; voice telephone (402) 479-4871, TDD telephone (402) 479-3834, fax (402) 479-3989. Comments may also be posted online through the Secretary of State's website (see below).

To view or download the proposed amendments to the regulations or to comment online, visit: <u>https://www.nebraska.gov/nesos/rules-and-regs/regtrack/index.cgi</u> ("Agency": Transportation). To obtain a free paper copy of the proposed changes, the Proposed Regulation Policy Pre-Review Checklists, or the Fiscal Impact Statements, contact NDOT's Government Affairs Office, PO Box 94759, Lincoln, Nebraska 68509-4759; voice telephone (402) 479-4324; TDD telephone (402) 479-3834; fax (402) 479-3758; <u>erich.strack@nebraska.gov</u>. To view or pick up copies in person: Director's Office, 1500 Highway 2, Lincoln, NE. NDOT will make every reasonable accommodation to provide an accessible meeting facility for all persons. Appropriate provisions for the hearing and visually challenged or persons with limited English proficiency (LEP) will be made if NDOT is notified by October 14, 2020. Notification should be submitted to Sarah Soula (see contact information above).

This notice is provided pursuant to the Administrative Procedure Act.

Title 28 – BOARD OF PUBLIC ROADS CLASSIFICATIONS AND STANDARDS

Chapter A - Instruction Manual for Standardized System of Annual Reporting (Continued)

001 INTRODUCTION

<u>001.01</u> STATEMENT OF PURPOSE. During the 1965 session of the Nebraska State Legislature, a resolution was passed which directed a Legislative Council Roads Study Committee to study, in corperation with the Federal Bureau of Rublic Roads (Now the Federal Highway Administration), the State Highway Commission, the State Engineer, the Department of Roads, and local governmental agencies - 11) to determine sound legislative policies and management practices to be followed in highway construction and maintenance - (2) to determine an equitable basis for distribution of all highway revenues - (3) to determine techniques to get closer coordination between state and local units in planning construction of highways - (4) to make an engineering study and inventory of use and needs of all highways, roads, and streets.

Consultants were hired to conduct studies and to recommend action. These studies and their recommendations were the basis for the package of highway legislation which was passer by the 1969 and 1971 Legislatures. The consulting firm of Ernst and Ernst of Cleveland, Ohio, conducted the management portion of the study. One of their statements was as follows: "All public officials at all infels of government must recognize and accept the principle that public monies entrusted for their disbursing must be accounted for in accordnace with certain prescribed procedures which include adequate evidence that the purpose for which the funds were appropriated were followed. The determination that the funds were used properly, wisely, and in accordance with predetermined plans must be made by someon other than the local officials, and must be made in accordance with a standardized and uniform system."

In light of the above statement, the legislature included the following in 39-2120 Neb. Rev. Stat.

The Auditor of Public Accounts and the Board of Public Roads Classifications and Standards shall develop and schedule for implementation a standardized system of annual reporting to the Board of Public Roads Classifications and Standards by the Department of Roads and by counties and municipalities, which system shall include:

- (1) A procedure for documenting and certifying that standards of design, construction, and maintenance of roads and streets have been met;
- (2) A procedure for documenting and certifying that all tax revenue for road or street purposes has been excended in accordance with approved plans and standards, to include county and municipal tax revenue, as well as highway-user revenue allocations made by the state;
- (3) (3) uniform system of accounting which clearly indicates, through a system of reports, a comparison of receipts and expenditures to approved budgets and programs;

FILEN JAN 2 1997 Secretary - State

3

Title 428 - BOARD OF PUBLIC ROADS CLASSIFICATIONS AND STANDARDS

Chapter 1 – Instruction Manual for Standardized System of Annual Reporting (Continued)

- A system of budgeting which reflects uses and sources of funds in terms of programs and accomplishments;
- (5) An approved system of reporting an inventory of machinery, equipment, and supplies; and
- (6) An approved system of cost accounting of the operation of equipment.

In compliance with 39 2120 Neb. Rev. Stat. the reports, samples or which are included in this manual, are required to be submitted in the manner outlined on the following process.

<u>Q01.02</u> SCOPE. The financial and inventory reports outlined in this manual encompass the activity of every street department, public works department, county highway department, township road activity and the Department of Roads. The reports should detail the financing of all road and street construction, maintenance, administration, equipment purchased for highways, roads and streets, and debt servicing. Street lights and storm sewers shall be included.

Street and road construction includes special assessment paving districts, even though none of the cost may be a general obligation of the municipality or county.

<u>001.03</u> <u>REPORTING DATE</u>. All reports shall cover the fiscal year of the reporting unit of government. Any governmental entity having a fiscal year other than that shown may report based on their fiscal year date. The schedule below shall be followed unless the Board of Public Roads Classifications and Standards receives written notification of a different fiscal year.

Governmental Unit	<u>Fiscal Year</u>	Reporting Date
County/State	July 1 to June 30	September 30
First Class City Second Class City Village	October 1 to September 30	December 31
Lincola	September 1 to August 31	November 30
Ochaha	January 1 to December 31	March 31
001.04 SUBMITTAL DATE. All r	reports are due ninety days after the end	ling date of each frical year.

Chapter 4 - Instruction Manual for Standardized System of Annual Reporting (Continued)

001.05 FORM SUBMITTAL INSTRUCTIONS. Reports required to be submitted to the Board of Public Roads Classifiations and Standards are as follows:

Form Number	Form Name
NBCS-1a-1e	Road-Street-Highway Budget & Expenditure Report
NBCS-2	Roads & Streets Financial Report
NBCS-3	Material & Supply Inventory Report
NBCS-4	Machinery & Equipment Inventory Report
NBCS-5	Equipment Cost Report
NBCS-6	Certification

NBCS-1a-1e Road-Street-Highway Budget & Expenditure Report - Submit one copy of this form which reports the previously submitted fiscal year budget estimates in the first column. Enter the actual expenditures for the fiscal year in the middle column. In the last column shown the next fiscal year budget.

NBCS-2 Roads & Streets Financial Report Submit one copy of this form which reports the previously submitted fiscal year revenue estimates in the first column. Enter the actual revenue for the fiscal year in the middle column. Next fiscal year revenue estimates are to be entered in the last column.

NBCS-3 Material & Supply Inventory Report - Submit one copy of this form reporting materials and supplies inventory as of the end of the fiscal year.

NBCS-4 Machinery & Equipment Inventory Report - Submit the copy of this form reporting machinery and equipment inventory as of the end of the fiscal year.

NBCS-5 Equipment Cost Report -- Submit one copy of this form reporting equipment costs incurred during the fiscal year.

NBCS-6 Certification – Submit one copy of this form to certify that minimum standards of design, construction and maintenance of roads and streets have been met and that revenues have been expended according to plans and standards and rules and regulations for the previous fiscal year.

Title 428 - BOARD OF PUBLIC ROADS CLASSIFICATIONS AND STANDARDS

Chapter - Instruction Manual for Standardized System of Annual Reporting (Continued)

002 FORM REPARATION INSTRUCTIONS

<u>002.01</u> ROAD-STREET-HIGHWAY BUDGET & EXPENDITURE REPORT FORM NBCS-1a-1e. The purpose of this form is to report approved budgets by object of expenditure, and then to compare actual expenditures to that budget when the period has passed. This information, when evaluated, will assist in the preparation of the next fiscal year budget. The approved budget for the next fiscal year is reported in the last column.

Definitions of terms listed to the "item" column are given in detail below and on the following pages.

EXPENDITURES ITEM DEFINITIONS

- I PERSONAL SERVICES
- 103 SALARIES Gross amount of salary and wage payments to officers and employees of the road or street department whether regular, temporary or part time. Gross salary includes overtime payments, and amounts required to be deducted under provisions of any retirement act or tax law.
- 103.01 Administrative Salary of the administrator of the road or street program the City Street or County Highway Superintendent.
- 103.02 Engineering Salary of draftsmen, inspectors, surveyors, etc.
- 103.03 Maintenance Salary of patrol operators, mechanics, and other personnel occupied with the routine maintenance of highways, roads, and streets.
- 103.04 Construction Salary of laborers and machine operators engaged in improving the roads or streets to a higher standard.
- 103.05 Clerical Salary of Jookkeepers, secretaries, and other clerical personnel.
- 103.06 Custodial Salary of janitors and groundskeepers.
- 108 INSURANCE PREMIUMS Employer's share of any programs described by line items 108.01 through 158.04.
- 109 RETIFEMENT CONTRIBUTIONS Employer's payments to retirement program

. 428 – 1	BOARD OF PUBLIC ROADS CLASSIFICATIONS AND STANDARDS
oter 4 —	Instruction Manual for Standardized System of Annual Reporting (Continued)
110	OLD AGE, SURVIVORS & DISABILITY INSURANCE - Employer's share of OASDI.
113	OTHER PERSONAL SERVICES - List any personal expense items for which a category has no been provided.
115	UNEMPLOYMENT CONTRIBUTIONS - Employer's cost.
	PERATING EXPENSES - Services performed by persons not in employment of the governmentation it.
201	POSTAL SERVICES Postal services include post office box rental, postage stamps, stampe postcards, postal insurance, metered postage, etc.
202	TELEPHONE SERVICES – Kelephone rentals and tolls, telegraph, cable radiogram, teletype an local messenger services.
204	RADIO REPAIR - Repair and routing servicing of radio communication equipment by others.
205	UTILITIES – Cost of services from others for electricity, water, heating fuel, sewer and garbag removal.
206	INSURANCE PREMIUM9 - Cost of premiums for physical damage insurance on real property except insurance related to personal services, and for Inbility insurance.
207	EMPLOYEE BONDS - Charges incurred for fidelity and similar insurance coverage.
211	DATA PROCESSING COSTS - Charges incurred for data processing services provided by others.
212	OFFICE EQUIPMENT REPAIR — Repairs, servicing or maintenance contracts of offic equipment.
213	BUILDING REPAIR — Interior or exterior decorating and minor repairs done by others, which are permanently attached to a building.
214	ROAD EQUIPMENT REPAIR (Parts) - Cost of parts, installed by others, to repair utomotiv and road equipment.

.

505	OFFICE EQUIPMENT — Payments for acquisition of typewriters, adding machines etc. include payments for equipment being purchased on a rental agreement basis.
506	SPRAYING EQUIPMENT -
511	OTHER EQUIPMENT - List any equipment purchases for which a category has not been provided.
512	HIGHWAY, ROAD & STREET CONTRACTS – Payments to constructors for highways, roads, and streets built under contracts or agreements and payments for materials incorporated into the constructed highways, roads, and streets.
513	SPECIAL FEES – Legal, engineering, architectural or allied services, surveys, advertisements for bids, assurance of bonds, etc. related to acquisition of real property. Appraisers, Advertising for Bids, Consultants, and Testing.
514	MISCELLANEOUS CAPITAL OUTLANS - Capital outlays not listed elsewhere may be identified here.
	EBT SERVICING
601	PRINCIPAL RETIREMENT - Amount of principal debt (road or street bonds) redeemed during the fiscal year.
602	INTEREST PAYMENTS — Interest payments on the above dept incurred during the fiscal year to include bonds and short term notes (registered warrants).
GRAND	TOTAL - Total must be furnished for each of the three columns.
	E IMPROYEMENT FUND — This item is provided for budget purposes only. Actual investments shall ted in the space provided on NBCS Form 1e.
	INSTRUCTIONS & DEFINITIONS ROADS & STREETS FINANCIAL REPORT FORM NBCS-2 -
activitie	pose of this report is to identify the amounts and sources of revenues available to carry on the s described on Forms 1a thru 1e. This section also provides for a summary of revenues and expendi- d beginning and ending cash balances. The following explanation is to define what types of revenues

Ì

Tyle 428 - BOARD OF PUBLIC ROADS CLASSIFICATIONS AND STANDARDS

Chapter 4 - Instruction Manual for Standardized System of Annual Reporting (Continued)

BEGINNING CASH BALANCE — The cash balance at the beginning of the fiscal year is a total of all funds (accounts) which are earmarked for roads and street purposes. Cash balance is defined as including cash on hand, in a thecking account or invested funds, future improvement funds, bond retirement funds, and road or street equipment funds. If only a portion of a fund is used for roads and streets, report only the part earmarked for road and street purposes. An example would be County Inheritance Tax Funds. Some counties use their Inheritance Tax Fund exclusively for roads. In this case, the fund balance mould be included. Some counties use their Inheritance Tax Fund for equipment, road equipment as well as other types of equipment. In this case, only the portion of the fund earmarked for road and street purpose should be reported.

LOCAL SOURCES - Local sources shall include all revenue which is raised locally and dedicated for roads and streets purposes. If a portion of a certain type of revenue is used for street purposes, include only that amount.

300.	Property Tax - For purposes on this report, property tax funds dedicated for road and street
	purposes includes both current and delinquent ad valorem property taxes and any interest or
	penalty for late payment. Include property tax on motor vehicles. Include taxes levied for street
•	lights, township roads, if applicable, and taxes for redemption of road and street bonds.

310. Inheritance Tax — If the inheritance fax funds are used exclusively for roads or road equipment, show the new revenue after court crists or fees have been deducted.

If the inheritance tax funds are used occasionally for road purposes, show only that amount earmarked for road purposes.

- 315.02 Local Sales Tax The possibility exists that at some future date, sales tax may be used for road and street purposes. Therefore, a line has been provided for possible future use.
- 316.01 Wheel Tax Ficlude revenues from local wheel tax.
- 317. Special Assessments All special assessments collected for paving districts, whether to pay the actual costs or to pay the debt incurred, should be included.
- 318. Occupation Tax Report only that occupation tax which is dedicated for road and street purposes.
- 353.

In Lieu of Taxes – Public Power Districts In Lieu of Taxes 1957 and Prior, Public Power Districts 5% Gross Revenue in Lieu of Taxes and Housing Authority In Lieu of Taxes. Report only that tax which is dedicated for road and street purposes.

tite 428 – BOARD OF PUBLIC ROADS CLASSIFICATIONS AND STANDARDS

Chapter 4 — Instruction Manual for Standardized System of Annual Reporting (Continued)

- 510.01 Interest on Investments Report the net profit or loss on investments and interest payments credited. Do not include principal. List all investments identifying principal and interest amounts on NBCS Form 1e.
- 520.01 Bond Proceeds Include the actual proceeds from bonds, the face value (+) premiums and accrued interest (-) discounts.
- 520.02 Registered Warrants Include all revenues from issuance of registered warrants.
- 530. Sale of Property Include funds received from the sale of land, buildings, surplus items and equipment.
- 590. Transfers From Other Funds Show transfers from funds which are normally not considered as road or street oriented. An example would be light department funds which are transferred to a street improvement fund. This shall be a net figure, if the transfer was a temporary loan and was repaid during the fiscal year, document such fund transfers. Identify source and dollar amounts.

Any general fund appropriation for road and treet purposes shall be reported. The most common type is for a county board or city council or determine that an appropriation be made to the road or street fund.

Quite often, administrative and engineering expenses will be paid from general funds. Since the identity of revenue is lost as it passes through a general fund, the receipts to offset these expenditures should properly be shown as a general fund topropriation.

Miscellaneous Revenue – Report all other local revenue used for road and treet purposes. Identify source and dollar amounts.

This would include special permits and fees such as truck overload permits, curb-cut fees, and various fees and permits to use streets.

Refunds or recoveries of any expenditures made in prior years. If refund or recovery is for current year expenditures, they should be treated as a reduction of current year expenditures and credited to the appropriate expense.

Money received to perform a service for another unit of local government. The agreement may be other for a fixed fee or on a basis of actual costs.

Title 428 – BOARD OF PUBLIC ROADS CLASSIFICATIONS AND STANDARDS

Chapter 4 - Instruction Manual for Standardized System of Annual Reporting (Continued) .

All revenue received as a result of a gift, pledge, grant or bequest from private sources.

Any amount collected as the result of a court decision or insurance settlement.

Revenue received as a non-recurring collection.

Township Sources - If a township county is including township sources, the dollar amount and type of revenue shall be reported.

STATE SOURCES

347.02

- 341.01 State Aid Bridge Fund County bridge replacement funds from the State Aid Bridge Fund as provided by 39-846 and 39-847 Neb. Rev. State
- 341.02 Emergency State Aid Emergency disaster aid funds are occasionally made available to counties and municipalities. An example was the Disaster Snow Removal allotment established for the 1971 snow emergency.
- 344.01 Homestead Exemption Allocation These funds replace local property tax loss due to the exemptions allowed under the provisions of 72-202.12 through 77-202.22 Neb. Rev. Stat. Report only that portion to be used for road and street purposes.
- 344.02 Personal Property Tax Relief Allocation Replacement revenue because of exemption allowed under the provisions of 77-202.25 through 77-202.33 Nab. Rev. Stat. Report only that portion to be used for road and street purposes.
- 346.01 Motor Vehicle Pro Rate Tax Allocation Distribution of funds in the motor Vehicle Tax Fund as provided by 77-1241.09 Neb. Rev. Stat.

347.01 Highway/Street Allocation Funds – These are the monthly receipts from the Highway Allocation Fund distributed by the State Treasurer. These revenues must be matched by local funds as required by 39-2509 and 39-2519 Neb. Rev. Stat.

State Incentive Payments - These are payments to those municipalities and counties which have a certified City Street or County Highway Superintendent in their employ.

Title 28 - BOARD OF PUBLIC ROADS CLASSIFICATIONS AND STANDARDS

Chapter 4 - Instruction Manual for Standardized System of Annual Reporting (Continued)

- 347.03 Make-up Funds The "Make-up Funds" paid to certain counties in January are remitted to assure that no county receives less revenue from the distribution of the Highway Allocation Fund than it received in calendar year 1969 from Gas Tax and Motor Vehicle Registration Fees. "Make-up Fund" payments are made from Highway Allocation Funds. These revenues must be matched by local funds as required by 39-2509 Neb. Rev. Stat.
- 347.04 State High vay Urban Maintenance These are maintenance agreement payments to the municipalities by the Department of Roads for maintenance of State Highways within the corporate limits of municipalities.
- 352.01 Relinquished Funds Report funds relinquished by a municipality to the county. Enter the name of the relinquishing municipality and dollar amount. The county assumes responsibility for local matching funds, as required by 39-2519 Neb. Bev. Stat.
- Other All other state funds or grants used for road and street purposes. Identify source and dollar amounts.

FEDERAL SOURCES

- 330.20 Highway Safety Federal funds received for administration of highway safety programs.
- 331.01 Revenue Sharing Report only that portion of revenue sharing funds to be used for road and street purposes.
- 333.01 Federal Aid Secondary Funds These are Federal Aid Highway Funds. These funds may occur as a reimbursement through the Department of Roads to the municipality or county. These funds may also occur as a budget item so that the entire cost of a Federal Aid Project can be shown on the expenditure report.
- 334.01 Emergency Flood Relief These are Federal Disaster Funds which are distributed by the National Guard. Include only that portion which was received for damage to loads and bridges.
- 335.01 Forest Reserve Report only that portion of forest reserve funds to be used for road and street purposes.

Other

All other Federal Funds or Grants used for road and street purposes. Identify source and dollar amounts.

TOTAL REVENUE This is the grand total of the revenue from all sources.

R.

LESS EXPENDITURES This is the Grand Total of Actual Expenditures for the previous fiscal year as reported on NBCS Form 1a through 1e Road-Street-Highway Budget and Expenditure Report.

ENDING CASH BALANCE - This is funds on hand at the end of the fiscal year, and will be the Beginning Cash Balance for the next fiscal year.

002.03 INSTRUCTIONS & DEFINITIONS MATERIAL & SUPPLY INVENTORY REPORT FORM NBCS-3. The annual materials and supplies inventory developed in accordance with 39-2120 Neb. Rev. Stat shall be compiled in accordance with these instructions and submitted in the format of Form NBCS-3. This inventory shall include office equipment, furniture and those supplies which are:

- A. Appropriately chargeable against fund identified in the annual Budget Report to the Board of Public Roads Classifications and Stanuards
- B. Procured in bulk quantities and stocked in supply base, storage yard, or parts room type operations for release against projected requirements.
- C. Returned to supply base storage yard or part room type operations because they were not used for their intended purpose in the construction or maintenance project for which they were procured and against which they were charged.

The Material and Supply Inventory Report shall be compiled by assembling upplies and materials in generic or commodity groups and by arranging individual items alphabetically within each of the groups reported.

Items and quantities on hand shall be developed by a physical inventory of each supply base, storage yard, and parts room type operation under the jurisdiction of the reporting activity. Data to be entered in the respective spaces or columns of the Material and Supply Inventory Report are as follows:

A. As of ______. The closing or cut off date of the annual inventory. June 30, 1914, would indicate items and quantities physically on hand at the end of the fiscal year, the closing or cut off date.

Commodity Group — The broad group of supplies reported in this portion of the Material and Supply Inventory; for example, hand tools.

140 428 — BOARD OF PUBLIC ROADS CLASSIFICATIONS AND STANDARDS

Chapter 4 — Instruction Manual for Standardized System of Annual Reporting (Continued)

- C. Item Description The brief but descriptive identification used in the reporting activities procurement and inventory control activities. For example: 900 × 20 10-ply nylon tire mud and snow tread.
- D. On Hand Total quantity physically on hand as result of "Wall to War" inventory of all supply base, storage yard, and parts room type operations under the jurisdiction of the reporting activity.
- E. Unit Price Extracted from property record. May be the actual acquisition cost or a moving average unit price in accordance with the reporting activity's internal operating procedures.
- F. Dollar Value Quantity on hand (inventory quantity) times unit price.
- G. Page _____Of ____Pages. Each page of the Material and Supply Inventory Report is to be identified by its individually assigned page number to reflect the total number of pages in the inventory. The phrase "FINAL ITEM THIS COMMODITY GROUP" will be typed in capital letters on the line below the last item on the final page of each commodity group.
- NOTE: A computer printout may be submitted in lieu in NBCS-3 if it reports the required information.
- NOTE: Small items such as nuts, bolts, rivets, etc. nay be listed by the pound, dozen, gross, etc.
- NOTE: Any County may submit a copy of the audito's "County Officer's Inventory of County Personal Property" in lieu of the NBCS Form 3 Material and Supply Inventory Report.

002.04 INSTRUCTIONS & DEFINITIONS MACHINERY & EQUIPMENT INVENTORY REPORT FORM NBCS-4. The annual machinery and equipment inventory developed in accordance with 39-2120 Neb. Rev. Stat. shall be compiled in accordance with these instructions and submitted on the Form NBCS-4. All equipment and machines used to construct and maintain streets and roads shall be included in the inventory. Office equipment should be reported on Form NBCS-3.

To facilitate review, equipment shall be grouped by type and by age or model year within these broad groupings. For example, all movies shall be listed in one group and shall be sequenced by age or model year from the oldest to the newest unit.

The respective columns on the Equipment Report shall reflect the following information:

Column 1, Equipment Number — Reported items shall be individually identified by a license number, manufacturer's serial number, or a serial number assigned by the Governmental entity.

Assistant Attorney General 100 17'9 DATE

tie 428 - BOARD OF PUBLIC ROADS CLASSIFICATIONS AND STANDARDS

Chapter 4 — Instruction Manual for Standardized System of Annual Reporting (Continued)

Column 2, Date Purchased – Date on which title passed from vendor to reporting artivity. If this date is not readily available, the date equipment was delivered or the date of the warrant effecting payment may be substituted. A date readily available in existing records shall be used.

Column 2. License Number - The Nebraska License Number issued against the individual unit's certificate or registration. This column shall be blank if the item of equipment need not be licensed.

Column 4, Make Name of manufacturer.

Column 5, Type - Commercial or reporting activity's description of unit; for example, pickup truck.

Column 6, Size - Manufacturer's rated capacity of unit; for sxample, 5-passenger, ½-ton, 5000-gallon.

Column 7, Life Expectancy – Service life of the unit expressed in years as established at the time of acquisition.

Column 8, Year - Manufacturer's model year or the year unit was manufactured.

Column 9, Model - Manufacturer's model designation; for example, Belaire, D-7, F-500.

Column 10, Serial Number -- Manufacturer's assigned serial number which identifies the reported unit and which will not lose its identity in the repair and overhaul process.

Column 11, Cost – Actual dollar value of reported unit in operating condition. Includes acquisition costs of basic unit (e.g. chassis) and major components (e.g. dump body) as indicated on the purchase orders or warrants effecting payment plus, when appropriate, local labor and overhead costs chargeable against the assembly operation. Reporting agencies shall establish a fair dollar value for used components (e.g. used dump body mounted on a new chassis) involved in the assembly process.

Column 12, Rental Rate — The rate at which the Item of Equipment is rented to the governmental agency having custody and the rate at which the equipment is charged out against an activity or project. Note separate rates for other using governmental agencies and other users authorized by statute to rent the unit may be required.

Column 13, Remarks - Any additional information deemed essential by the reporting agency such as condition, projected date of retirement, need for retaining equipment which is used infrequently.

Note: A computer printout may be submitted in lieu of NBCS Form-4 if it reports the required information.

Title 28 - BOARD OF PUBLIC ROADS CLASSIFICATIONS AND STANDARDS

Chapter 4 Instruction Manual for Standardized System of Annual Reporting (Continued)

<u>002.05</u> <u>INSTRUCTIONS & DEFINITIONS EQUIPMENT COST REPORT FORM NBC95</u>. The annual equipment operating costs developed in accordance with 39-2120 Neb. Rev. Stat. shall be compiled in accordance with these instructions and submitted in the format of NBCS-5. All equipment and machines used to construct street, and roads shall be included in the report.

To facilitate review, equipment shall be grouped for reporting purposes by type and by age or model year within these broad groupings. For example, all mowers shall be listed in one group and shall be sequenced by age or model year from the dest to the newest unit.

Data required in the respective coumns of the Annual Equipment Cost Report are as follows:

Column 1, Description - Either a brief commercial or the reporting activity's identification of the individual unit; for example, Ford Nickup Truck.

Column 2, Code – The reporting activity's equipment number, the State license number, or the manufacturer's serial number.

Column 3, Year Manufactured - Self explanatory. As indicated on State of Origin or Bill of Sale.

Column 4 and 5, Miles/Hours - The cumulative miles or hours recorded on the equipment odometer or hour meter during the fiscal year.

Note: Certain equipment such as a truck mounted crane-dragline may be equipped with both an odometer (miles for trucks) and an hour meter (hours for crane), and there will be an entry in both Columns 4 and 5.

Column 6, Gallons - Total quantity of fuel consumed by the item of equipment during the fiscal year.

Column 7, Total Cor. - Dollar value of the fuel consumed by the item of equipment during the fiscal year.

Column 8, Oi - Total quantity of oil used by the item of equipment during the fincal year.

Columna, Total Cost - Dollar value of oil used by the item of equipment during the fincal year.

Column 10, Greasing – Total dollar value expended to lubricate the item of equipment during the fiscal year.

Title 28 - BOARD OF PUBLIC ROADS CLASSIFICATIONS AND STANDARDS

Chapter 4 - Instruction Manual for Standardized System of Annual Reporting (Continued)

Column 11, Tires and Tubes - Dollar value of replacement tires and tubes charged against the item of equipment during the fiscal year.

Column 12 Special Services – Dollar value of any expenses directly chargerole against the item of equipment not otherwise identified in the report (e.g. cleaning, painting insurance, anti-freeze, on vheicle equipment to include tire chains, minor tools, accessories and equipment installed or routinely carried on the equipment).

Column 13, Subtotal Overation Cost - The sum of costs entered in Columns 7, 9, 10, 11 and 12.

Columns 14 and 15, Operation Cost Per Mile/Hour – Average operating cost per mile or hour accumulated against the item of equipment during the fiscal year, subtotal operation cost (Column 13) divided by miles/hours operated Columns 4 or 5).

Note: Report Operation Cost per hour (divide Column 13 by Column 5) for equipment such as a truck mounted crane-dragline when both miles and hours operated are reported in Columns 4 and 5.

Column 16, Labor - Dollar value of labor expended to tune up, repair and overhaul the item of equipment during the fiscal-year. Does not include labor required to assemble components (e.g. new chassis and dump body) which is included in acquisition cost.

Column 17, Parts - Dollar value of all parts expended to tune up, repair or overhaul the item of equipment during the fiscal year.

Column 18, Total Repair Cost -Sum of Columns 16 and 1

Column 19, Indirect Expense – Dollar value of any overhead costs incurred and not otherwise identifiable in the report should be pro-rated against the item of equipment. Examples of appropriate type charges include costs of constructing, maintaining and operating shous and storage facilities required to support the equipment.

Column 20, Depreciation Charge – A straight line depreciation, developed by dividing the cost (Column 11, Machinery & Equipment Inventory Report, NBCS-4) by the equipment's line expectancy (Column 7, Machinery & Equipment Inventory Report, NBCS-4).

Note: Depreciation charges shall be reported for those individual units which are within the life expectancy indicated in Column 7, Machinery & Equipment Inventory Report, NBCS-4. Depreciation charges shall not be reported for equipment retained beyond the life expectancy cited in Column 7, Machinery & Equipment Inventory Report, NBCS-4.

Title 428 - BOARD OF PUBLIC ROADS CLASSIFICATIONS AND STANDARDS

Chapter 4 Instruction Manual for Standardized System of Annual Reporting (Continued)

Column 21, Total Cost All Items – Sum of Subtotal Operation Cost (Column 13) Subtotal Repair Cost (Column 18), Indirect Expense (Column 19), and Depreciation Charge (Column 20) for items of equipment during the fiscal year.

Columns 22 and 23, Average Cost per Mile/Hour – Total cost all items (Column 21) divided by miles, hours operated (Corumns 4 and 5) as appropriate for items of equipment during the fiscal year. Note: Report average cost per hour (Column 21 divided by column 5) for equipment such as a truck mounted crane-dragline when both miles and hours operated are reported in Columns 4 and 5.

Column 24, (*Optional), Remal Earned – Rental rate as indicated in Column 11 Machinery & Equipment Inventory Report, time, miles/hours operated (Column 4 and 5) this report.

Column 25 (*Optional), Gain or Loss Difference between Total Cost All Items (Column 21) and Rental Earned (Column 24) appropriately annotated with a plus (+) or minus (-) sign to indicate a gain or loss.

Note: A computer printout may be submitted in lieu of NBCS Form-5 if it reports the required information.

<u>002.06 CERTIFICATION FORM NBCS-6</u>. Submit a certificate that the minimum standards of design, construction, and maintenance of roads and streets have been met, and that all tax revenue for road or street purposes has been expended in accordance with approved plans and standards, to include county and municipal tax revenue, as well as highway-user revenue allocations made by the state. Such certificate shall also include a statement showing where documentation in support of assertions hade in the certificate are on file, and assurance that such documentation and supporting information is available to the Board of Public Roads Classifications and Standards.

39-810 R.R.S. NEBR 1143

..... All contracts for ecidge erection or repair, approaches thereto, culverts, or red improvements in excess of ten thousand dollars shall require individual cost accounting records on each individual project. The total costs of each such separate project shall be included in the annual records to the Board of Public Roads Classifications and Standards as required by Section 39-2120.

- (1) All costs charged to the project thall be reported. Total project costs shall be reported <u>AFTER_PROJECT</u> <u>COMPLETION</u> and final payment is made for projects costing in excess of ten thousand dollars. Report all contract projects completed during the fiscal year.
- (2) DO NOT report costs or payments on partially completed projects.

- (3) If your county completed no contract projects costing in excess of ten thousand dollars during the fiscal year, please complete the certification at the bottom of Form 1.
- (4) Reporting date. Prior to October

As Adopted By

The Board of Public Roads Classifications and Standards

> Effective March 19, 1976

> > <u>e</u>
