Pursuant to the Enhanced Wireless 911 Services Act, Neb. Rev. Stat. §§ 86-442 through 86-469 (2004 Cum. Supp.) (the Act), the Commission established a policy in an order dated March 30, 2004, outlining submissions required to be made by wireless carriers to the Commission on a quarterly basis. Additionally, the Nebraska Legislature enacted LB 1222 [2006] amending Neb. Rev. Stat. § 86-459(2) to specifically require wireless carriers to report on a quarterly basis the following to the Commission:

(a) The number of wireless lines, including prepaid customers, served by county; (b) the number of wireless lines, including active, prepaid accounts, from which it has collected surcharge revenue by county; (c) the number of wireless towers by county; and (d) the current implementation status of enhanced wireless 911 service in each county served by that wireless carrier.

This information is necessary for the development of statewide implementation of enhanced wireless 911 service.

In order to establish uniformity in the submission and to render the information more useful to the Commission consistent with the terms of § 86-459, the form attached hereto as Appendix A was developed for the reporting of subscriber count information.

The Commission finds that all wireless carriers, regardless of whether they receive funding from the Fund, shall submit the information required in § 86-459 and the March 30, 2004 order in Docket No. 911-010 using the attached form. The form will also be made available on the Commission website. Approval of the form will be incorporated into a future rule and regulation procedure.

Failure to provide the requested information in a timely fashion and in the appropriate format may result in fines pursuant to Neb. Rev. Stat. § 86-459(5) (2006), denial of funding from the Fund or delays in processing of funding requests.
