recurring costs of Enhanced)
Wireless 911 implementation.) Entered: October 30, 2007

BY THE COMMISSION:

By written requests for funding received from Antelope County, Public Safety Answering Point, Neligh, sought funding from the Enhanced Wireless 911 Fund (Fund) for implementing and providing enhanced wireless 911 service. The Commission entered an order approving funding in the amount of **\$11,500.00** for the purchase and installation of software necessary for enhanced wireless 911 service. In addition, the Commission approved reimbursement in the amount of **\$8,500.00** for expenses already incurred for the purchase and installation of the existing GeoLynx license.

Upon further review it was determined that the amount approved for the purchase and installation of software should have been **\$11,550.00** rather than **\$11,500.00**. The Commission finds that its April 10, 2007 order should be amended to reflect the proper amount of **\$11,550.00**. All other terms and conditions of the order remain in full force and effect.

O R D E R

IT IS THEREFORE ORDERED by the Nebraska Public Service Commission that the April 10, 2007 order is hereby amended to approve funding for software in the amount of **\$11,550.00**.

MADE AND ENTERED at Lincoln, Nebraska this 30th day of October, 2007.
