On or about March 30, 2010, the Nebraska Public Service Commission (Commission) opened the above-mentioned docket, on its own motion, seeking to administer funding for public safety answering points for the implementation and provision of Enhanced Wireless 911 service pursuant to the permanent funding mechanism approved under Docket No. 911-019/PI-118.

On April 14, 2016, the City of South Sioux City (South Sioux City) filed its application for funding with the Commission pursuant to Docket No. 911-019/PI-118.

South Sioux City, which serves Dakota County, is eligible for funding in the amount of up to \$69,703.30 for the 2016-17 funding year. South Sioux City has indicated that it anticipates using the funding provided for hardware and software upgrades and support, GIS maintenance, personnel and consulting costs. South Sioux City plans to set aside 25% of its funding for future equipment and software upgrades and purchases.

No prior funding commitments exist.

Based upon the above, the Commission finds that the funding request for South Sioux City in the amount of up to **\$69,703.30** should be approved consistent with the allocation determined in Docket 911-019/PI-118 paid in monthly installments of \$6,336.66 over eleven months.

Pursuant to Docket 911-019/PI-118, South Sioux City is required to submit documentation to justify expenditures, including an accounting of funds set aside for future equipment and software purchases, and update contact and other information no later than October 15, following the close of the funding year.
