Cedar County.) Entered: June 13, 2017

BY THE COMMISSION:

On or about April 3, 2017, Cedar County filed a request to use set-aside funds to purchase upgraded Motorola Solutions customer premise equipment (CPE), Equature call logging recorder equipment and five (5) years of maintenance at a total cost of \$85,969.35. The Wireless Enhanced 911 Advisory Board considered the request at its May 8, 2017 meeting and recommended the request be approved.

On or about May 17, 2017, Cedar County filed a revised request for funding with respect to the same equipment, reflecting revised pricing from the vendor, and because multi-year maintenance agreements may not be paid in advance with set-aside funds. Pursuant to the revised funding request, the total cost of the equipment proposed to be purchased by Cedar County is \$48,622.17

The equipment costs are shared costs subject to the wireless/wireline ratio. The wireless ratio for the Cedar County for the 2016-2017 funding year is 69% wireless. Therefore, Cedar County is requesting approval to use funding in the amount of \$33,549.30, representing 69% of the total equipment costs.
