On or about March 30, 2010, the Nebraska Public Service Commission (Commission) opened the above-mentioned docket, on its own motion, seeking to administer funding for public safety answering points for the implementation and provision of Enhanced Wireless 911 service pursuant to the permanent funding mechanism approved under Docket No. 911-019/PI-118.

On April 8, 2016, Nance County filed its application for funding with the Commission pursuant to Docket No. 911-019/PI-118.

Nance County, which serves Nance County, is eligible for funding in the amount of up to \$41,732.55 for the 2016-17 funding year. Nance County has indicated that it anticipates using the funding provided for costs related to support for 911 hardware and software, personnel costs, support for GIS data development, and 911 trunking expenses, and plans to set aside any remainder for future equipment and software upgrades and purchases.

No prior funding commitments exist.

Based upon the above, the Commission finds that the funding request for Nance County in the amount of up to **\$41,732.55**, should be approved consistent with the allocation determined in Docket 911-019/PI-118 paid in monthly installments of \$3,793.87 over eleven months.

Pursuant to Docket 911-019/PI-118, Nance County is required to submit documentation to justify expenditures, including an accounting of funds set aside for future equipment and software purchases, and update contact and other information no later than October 15, following the close of the funding year. If the Commission determines that any funds were not used appropriately,
