BY THE COMMISSION:

By order of the Commission entered June 25, 2003, the Commission granted Holt and Boyd Counties funding for costs of database upgrades, specifically for a 10/20 digit automatic location identification (ALI) feature. The Commission found that payment should be made to Qwest Corporation, the local exchange carrier serving Holt and Boyd Counties; however, prior to applying for funds, Holt and Boyd Counties had already paid for the upgrade from their own funds.

Because Holt and Boyd Counties have already paid expenses in the amount of \$14,322.00 for the 10/20 upgrade, payment should properly be made directly to Holt and Boyd Counties, for reasons set forth in the Commission's order of June 25, 2003, in this docket.

O R D E R

IT IS THEREFORE ORDERED by the Nebraska Public Service Commission that Holt and Boyd Counties be reimbursed directly for costs consistent with this order.

MADE AND ENTERED at Lincoln, Nebraska this 5th day of August, 2003.
