) Entered: November 6, 2007

BY THE COMMISSION:

On October 2, 2007, the Commission entered an order approving initial costs of **\$34,500.00** for the development of GIS Geographical Information System (GIS) map layers and an additional **\$25,000.00** over a five (5) year period for the maintenance of the data necessary for the implementation of Phase II wireless enhanced 911.

However, the amount of initial costs should have been **\$14,900.00** rather than **\$34,500.00**.

The Commission finds that its October 2, 2007 order should be amended to reflect the proper initial costs of \$14,900.00. The remaining terms of the order remain unaffected.
