On or about August 8, 2006, the Nebraska Public Service Commission (Commission) opened the above-captioned docket, on its own motion, to develop policies and process requests for access to GIS data and the GIS Repository.

In an order entered on November 24, 2009, the Commission granted the application of the Department of Natural Resources access to the centralized data repository (Repository) for the GIS data. On or about January 25, 2011, the Department of Natural Resources filed a request to amend its access to the repository to include Howard County and to allow access by another contact. The request does not seek access to any proprietary or confidential information. The Commission finds that the request should be granted as filed.
