

BEFORE THE NEBRASKA PUBLIC SERVICE COMMISSION

In the Matter of the Nebraska                    ) Application No. 911-024  
Public Service Commission, on                    )  
its own motion, to develop                    )  
policies and process requests                    ) ORDER ADOPTING AMENDED POLICY  
for access to GIS data and the                    ) AND APPLICATION FORM  
GIS Repository.                                    )  
  )  
  ) Entered: April 9, 2013

BY THE COMMISSION:

O P I N I O N     A N D     F I N D I N G S

On August 8, 2006, the Nebraska Public Service Commission (Commission) opened the above-captioned docket, on its own motion, to develop policies and process requests for access to GIS data and the GIS Repository. A GIS Access and Use Policy and application form were approved by the Commission in an order entered in this docket on October 10, 2007.

On February 20, 2013, the Commission entered an order releasing for comment an amended policy and application form, attached hereto as Appendices A and B and incorporated herein by this reference, and scheduled a hearing.

Hearing on the proposed changes was held on April 2, 2013 in the Commission Hearing Room, 300 The Atrium, 1200 N Street, Lincoln. Angela Melton appeared on behalf of Commission staff. Ms. Sue Vanicek, director of the Nebraska Telecommunications Infrastructure and Public Safety Department, testified regarding the proposed changes. No written comments were filed and no other interested parties testified at the hearing.

The Commission finds that the amended policy and application form should be adopted.

O R D E R

IT IS THEREFORE ORDERED by the Nebraska Public Service Commission that proposed changes to the GIS Access and Use Policy and application form, attached hereto as Appendices A and B respectively, are adopted.

MADE AND ENTERED at Lincoln, Nebraska, this 9th day of April, 2013.

## GIS Repository Access and Use Policy

### General

Access to the Repository shall be password protected. The Commission will assign passwords to allow access to the Repository to each approved entity.

Access to the Repository shall be limited to federal or state agencies, counties, municipalities or other political subdivisions or entities or individuals acting on behalf of such agencies, counties, municipalities or other political subdivisions pursuant to a contract.

Only those entities and individuals approved by the Commission will have access to the Repository.

The Commission makes no warranties or guarantees with respect to the accuracy or completeness of the data contained within the Repository.

### Request for Access to Repository

All requests for access to the Repository shall be made to the Commission in writing on the Commission approved form. The Commission and the Nebraska Telecommunications Infrastructure and Public Safety Department reserve the right to request additional information regarding any request.

Requests for access do not constitute requests for public records pursuant to Neb. Rev. Stat. § 84-712 et seq. Such requests shall be made consistent with statutory requirements.

All individuals who will be permitted to use the password shall be listed on the form.

The Commission will grant only those permissions necessary to allow the entity to use the Repository for its approved purpose. Access will be tailored to the needs of the requesting entity or individual.

The Commission reserves the right to deny access to any entity or individual or revoke access from any entity or individual as permitted by state law, Commission rules and regulations or Commission orders.

All approved entities and individuals are required to update the information on file with the Commission with respect to users immediately upon any changes. Failure to do so may result in revocation of access to the Repository.

### Updates and Downloads

Upload capabilities enables a user to upload and replace data on the Repository. The ability to upload data onto the Repository requires advanced GIS technical expertise to ensure data are formatted in the correct manner.

The potential exists for damage to the Repository and corrupt the Repository database should incorrectly formatted or poorly constructed GIS data be uploaded onto the system.

The Commission will review upload access requests on a case-by-case basis.
