BY THE COMMISSION:

On November 13, 2008, the Commission opened the above-captioned docket, on its own motion, to investigate the reimbursement of wireless carrier Phase II costs from the Enhanced Wireless 911 Fund (Fund) through the permanent funding mechanism. The Commission sought comment from interested parties regarding whether, and in what manner, the permanent funding mechanism required in LB 1222 [2006] should address funding for the Phase II costs of wireless carriers. Comments were received from Viaero Wireless, Hall County Emergency Management and the Grand Island Emergency Communications, and the City of Lincoln/Lancaster County.

A proposed permanent funding mechanism has been released for comment in Application No. 911-019/PI-118 and addresses the issues raised in this docket. Therefore, the Commission finds that the present docket should be closed.
