Enhanced Wireless 911 service:)
City of Holdrege.) Entered: December 11, 2018

BY THE COMMISSION:

On March 30, 2010, the Nebraska Public Service Commission ("Commission") opened the above-mentioned docket, on its own motion, seeking to administer funding for public safety answering points ("PSAPs") for the implementation and provision of Enhanced Wireless 911 service pursuant to the permanent funding mechanism.¹

On or about September 20, 2018, the City of Holdrege filed a request to use \$9,569.00 of set aside funds for the purchase of a GeoComm GeoLynx server mapping system, representing \$3,794.00 of non-recurring costs and \$5,775.00 for the first year of a three-year license agreement.

The costs are shared costs subject to the wireless/wireline ratio. The wireless ratio for the City of Holdrege for the 2018-2019 funding year is 65% wireless.

The Wireless Enhanced 911 Advisory Board Considered the request at its October 29, 2018 meeting and recommended the request be approved.

Pursuant to the 911 Service system Act² (the "Act"), the Commission is responsible for allocating funding to PSAPs from the 911 Service System Fund (the "Fund").³ The Fund consists primarily of surcharges collected by wireless carriers from wireless service customers.⁴ The Act provides that money in the fund may be used to pay for costs that are determined by the Public Service Commission

¹ In the Matter of the Nebraska Public Service Commission, on its own motion, seeking to administer funding for public safety answering points for the implementation and provision of Enhanced Wireless 911 service, Application No. 911-042, ORDER OPENING DOCKET (March 30, 2010).

("Commission") to be eligible for funding, including costs incurred by PSAPs for acquisition, installation, maintenance, and operation of telecommunications equipment and services required for the provision of 911 service.⁵

The funding mechanism adopted by the Commission permits PSAPs to set aside up to seventy-five percent (75%) of their annual funding allocation for future purchases of equipment and software.⁶ Set aside funds may also be used to pay the first year of multi-year maintenance, service, support or licensing agreements.⁷ However, set aside funds may not be used to pay future years of multi-year maintenance, service, support or licensing agreements. Any such future costs must be paid from a PSAP's annually allocated funds or other sources.⁸

Based upon the request for funding, supporting documentation, and in consideration of the recommendation of the Advisory Board, the Commission is of the opinion and finds that the costs requested are eligible for funding as costs incurred for the purchase, installation, maintenance or operation of telecommunications equipment and telecommunications services required for the provision of 911 service. PSAP costs for the purchase and maintenance of software, including GIS data sets, are eligible for funding.⁹

Pursuant to the wireless ratio on file with the Commission for the City of Holdrege, the amount eligible for funding using set-aside funds would be up to \$2,446.10 with respect to one-time costs and \$3,753.75 with respect to first year licensing costs, for a total of \$6,199.85 when utilizing the wireless ratio on file with the Commission.

⁵ Neb. Rev. Stat. § 86-1025(5)(c).

⁶ In the Matter of the Nebraska Public Service Commission, on its own motion, to implement provisions of LB 1222 [2006] and to establish a permanent funding mechanism for wireless enhanced 911 service, Application No. 911-019/PI-118, FINAL ORDER ADOPTING MODEL AND APPLICATION PROCESS (Feb. 23, 2010).
