On or about March 30, 2010, the Nebraska Public Service Commission (Commission) opened the above-mentioned docket, on its own motion, seeking to administer funding for public safety answering points for the implementation and provision of Enhanced Wireless 911 service pursuant to the permanent funding mechanism approved under Docket No. 911-019/PI-118.

On April 14, 2016, Cheyenne County filed its application for funding with the Commission pursuant to Docket No. 911-019/PI-118. Cheyenne County, which serves Cheyenne County, is eligible for funding in the amount of up to **\$57,148.95** for the 2016-17 funding year.

Cheyenne County has indicated that it anticipates using the funding provided for costs of GIS data, LEC costs, training, 911 phone bills, and personnel, and does not plan to set aside any of its funding for future equipment, software upgrades and purchases.

An adjustment based upon an audit of the 2013-14 funding year in the amount of \$5,325.62 must be deducted from the allocation.

Based upon the above, the Commission finds that the funding request for Cheyenne County in the amount of up to \$51,823.33 should be approved consistent with the allocation determined in Docket 911-019/PI-118 paid in monthly installments of \$4,711.21 over eleven months.

Pursuant to Docket 911-019/PI-118, Cheyenne County is required to submit documentation to justify expenditures, including an accounting of funds set aside for future equipment and software purchases, and update contact and other information no later than October 15, following the close of the funding year.
