On or about May 1, 2017, Dixon County filed a request to use set aside funds for a hardware refresh of its Emergency Callworks 911 system and Equature voice logging system, at a total cost of **\$47,874.28**.

The costs are shared costs subject to the wireless/wireline ratio. The wireless ratio for Dixon County for the 2016-2017 funding year is 55% wireless.

The Wireless Enhanced 911 Advisory Board considered the request at its May 8, 2017 meeting and recommended the request be approved.

The Nebraska Public Service Commission (Commission) adopted the permanent cost model to administer funding for public safety answering points for the implementation and provision of Enhanced Wireless 911 service under Docket No. 911-019/PI-118.

Based upon the request for funding, supporting documentation, and in consideration of the recommendation of the Advisory Board, the Commission is of the opinion and finds that the costs requested are eligible under Neb. Rev. Stat. § 86-465 as costs have been incurred or will be incurred for the purchase, installation, maintenance or operation of telecommunications equipment and telecommunications services required for the provision of enhanced wireless 911 service.

The amount eligible for funding using set-aside funds would be up to \$26,330.85 when utilizing the County's 55% wireless ratio on file with the Commission.
