

SECRETARY'S RECORD, NEBRASKA PUBLIC SERVICE COMMISSION

BEFORE THE NEBRASKA PUBLIC SERVICE COMMISSION

In the Matter of the Nebraska) Application No. 911-042.67
Public Service Commission, on)
its own motion, seeking to)
administer funding for public) ORDER APPROVING FUNDING
safety answering points for the)
implementation and provision of)
Enhanced Wireless 911 service:)
Pierce County.) Entered: December 18, 2018

BY THE COMMISSION:

On March 30, 2010, the Nebraska Public Service Commission ("Commission") opened the above-mentioned docket, on its own motion, seeking to administer funding for public safety answering points ("PSAPs") for the implementation and provision of Enhanced Wireless 911 service pursuant to the permanent funding mechanism.¹

On or about October 15, 2018, the Pierce County ("Pierce County") public safety answering point ("PSAP") filed a request to use set-aside funds to purchase Dispatch Map (Standard) mapping software from GeoComm and related computer server equipment from RACOM Corporation. At the same time, Pierce County requested to use set-aside funds to hire GeoComm to develop county-wide geographic information system ("GIS") site/structure address point data. The total eligible cost documented in the request, including the first year of a multi-year licensing agreement, is \$26,386.00.

The costs for mapping software and computer server equipment are shared costs subject to the wireless/wireline ratio. The Pierce County ratio for the 2018-2019 funding year is 79 percent. The development of GIS site/structure address point data, however, is not subject to the wireless/wireline ratio and is payable entirely with wireless funds, including set-aside funds.²

The Wireless Enhanced 911 Advisory Board considered the Pierce County request at its October 29, 2018 meeting and recommended the request be approved.

¹ In the Matter of the Nebraska Public Service Commission, on its own motion, seeking to administer funding for public safety answering points for the implementation and provision of Enhanced Wireless 911 service, Application No. 911-042, ORDER OPENING DOCKET (March 30, 2010).

² In the Matter of the Nebraska Public Service Commission, on its own motion, seeking to administer funding for public safety answering points for the implementation and provision of Enhanced Wireless 911 service: Douglas County, Application No. 911-042.49, ORDER APPROVING REQUEST, IN PART (Dec. 18, 2012).

OPINION AND FINDINGS

Pursuant to the 911 Service system Act³ (the "Act"), the Commission is responsible for allocating funding to PSAPs from the 911 Service System Fund (the "Fund").⁴ The Fund consists primarily of surcharges collected by wireless carriers from wireless service customers.⁵ The Act provides that money in the fund may be used to pay for costs that are determined by the Public Service Commission ("Commission") to be eligible for funding, including costs incurred by PSAPs for acquisition, installation, maintenance, and operation of telecommunications equipment and services required for the provision of 911 service.⁶ PSAP costs for the purchase and maintenance of software, including GIS data sets, are also eligible for funding.⁷

The funding mechanism adopted by the Commission permits PSAPs to set aside up to seventy-five percent (75%) of their annual funding allocation for future purchases of equipment and software.⁸ Set-aside funds may also be used to pay the first year of multi-year maintenance, service, support or licensing agreements.⁹ However, set-aside funds may not be used to pay future years of multi-year maintenance, service, support or licensing agreements. Any such future costs must be paid from a PSAP's annually allocated funds or other sources.¹⁰

Although PSAP expenditures for eligible expenses are generally subject to the wireless/wireline ratio, the Commission has

³ Neb. Rev. Stat. §§ 86-1001 to 86-1029.03.

⁴ Neb. Rev. Stat. §§ 86-1025(5).

⁵ See, e.g., Neb. Rev. Stat. §§ 86-456, 86-456.01, 86-457, 86-459, 86-466, 86-904 and 86-1028.

⁶ Neb. Rev. Stat. § 86-1025(5)(c).

⁷ See, e.g., *In the Matter of the Nebraska Public Service Commission, on its own motion, seeking to administer funding for public safety answering points for the implementation and provision of Enhanced Wireless 911 service: Clay County*, Application No. 911-042.03, ORDER APPROVING FUNDING (October 31, 2017).

⁸ *In the Matter of the Nebraska Public Service Commission, on its own motion, to implement provisions of LB 1222 [2006] and to establish a permanent funding mechanism for wireless enhanced 911 service*, Application No. 911-019/PI-118, FINAL ORDER ADOPTING MODEL AND APPLICATION PROCESS (Feb. 23, 2010).

⁹ See, e.g., *In the Matter of the Nebraska Public Service Commission, on its own motion, seeking to administer funding for public safety answering points for the implementation and provision of Enhanced Wireless 911 service: City of North Platte*, Application No. 911-042.18 ORDER APPROVING FUNDING (August 29, 2017).

¹⁰ See, e.g., *In the Matter of the Nebraska Public Service Commission, on its own motion, seeking to administer funding for public safety answering points for the implementation and provision of Enhanced Wireless 911 service: Dundey County*, Application No. 911-042.45, ORDER APPROVING APPLICATION (Dec. 4, 2018).

SECRETARY'S RECORD, NEBRASKA PUBLIC SERVICE COMMISSION

Application No. 911-042.67

Page 3

previously determined that development of GIS site/structure address point data is an eligible expense which may be paid entirely with wireless funds, including set-aside funds.¹¹

Based upon the request for funding, supporting documentation, and in consideration of the recommendation of the Advisory Board, the Commission is of the opinion and finds that the costs requested are eligible for funding as costs incurred for the purchase, installation, maintenance or operation of telecommunications equipment and telecommunications services required for the provision of 911 service.

Pursuant to the wireless ratio on file with the Commission for Pierce County, the amount eligible for funding using set-aside funds for the purchase of Dispatch Map (Standard) software (including the first year of a multi-year licensing agreement) and the computer server is \$9,013.11. The cost to hire GeoComm to develop GIS site/structure address point data for Pierce County, which is not subject to the wireless/wireline ratio, is \$14,977. Therefore, the total amount eligible for funding is **\$23,990.11**.

O R D E R

IT IS THEREFORE ORDERED by the Nebraska Public Service Commission that the use of set-aside funds by Pierce County is hereby approved as stated herein an amount up to **\$23,990.11**.

ENTERED AND MADE EFFECTIVE at Lincoln, Nebraska this 18th day of December, 2018.
