

SECRETARY'S RECORD, NEBRASKA PUBLIC SERVICE COMMISSION

BEFORE THE NEBRASKA PUBLIC SERVICE COMMISSION

In the Matter of the)	Application No. NUSF-99.73
Nebraska Public Service)	
Commission, on its own)	
Motion, to administer the)	
Universal Service Fund High-)	GRANTED
Cost Program: United)	
Telephone Company of the)	
West d/b/a CenturyLink,)	
Broadband Grant Request.)	Entered: August 27, 2019

BY THE COMMISSION:

O P I N I O N A N D F I N D I N G S

By Application filed June 6, 2019 United Telephone Company of the West d/b/a CenturyLink, (CenturyLink or Applicant) seeks high-cost support from the Nebraska Universal Service Fund (NUSF). Notice of the application appeared in The Daily Record, Omaha, Nebraska on June 12, 2019, and in the Star Herald, Scottsbluff, Nebraska on June 20, 2019. No protests or interventions were filed; therefore, the Commission processed this application pursuant to its Rule of Modified Procedure.

CenturyLink seeks support in the amount of Fifty-Nine Thousand dollars (\$59,000) for the construction of facilities in an area around Cook Oil Road and Experiment Farm Road in CenturyLink's Mitchell exchange. According to CenturyLink this project will provide broadband service at speeds ranging up to 40 Mbps to approximately 12 living units in 19 census blocks in an area around Cook Oil Road and Experiment Farm Road in CenturyLink's Mitchell Exchange. None of these households can receive broadband service from CenturyLink at sufficient speeds currently. This project will involve deploying the fiber and the electronics necessary to allow speeds ranging up to 40 Mbps.

CenturyLink estimates that the project will begin construction within 90 days after approval from the Commission, weather permitting, and complete the project within 24 months. If the project is approved, CenturyLink will commit to providing broadband service to all households in the project area for a minimum of five years.

The Commission staff conducted an analysis of the census blocks submitted and compared the information against the Connect America Fund Phase II eligible areas. The Commission staff also

reviewed the census block information and compared it to its wireline Broadband Mapping data, which uses FCC Form 477 deployment data collected by the FCC biannually. The Commission finds support should be granted in the amount of \$59,000 as requested by CenturyLink.

Requests for Reimbursement:

CenturyLink must first make the investment and then may file a request for reimbursement with the NUSF Department. CenturyLink does not need to complete the construction process prior to seeking reimbursement; rather, it may work with the NUSF Department to develop intervals at which reimbursement can be sought. The NUSF Department will reimburse CenturyLink for capital improvement costs made relative to and as included in the application filed by the company for the projects approved in this Order. Once the investment is made, CenturyLink shall file a request for support, provide the NUSF Department with documentation consistent with Department policy and shall certify to the Department that it had made the described investment for the provision, maintenance and upgrading of facilities and services in the described rural areas.

Reporting Requirements:

CenturyLink shall file, on an annual basis, consistent with federally designated eligible telecommunications carriers (ETCs), the information required by the Commission's Telecommunications Rules pertaining to ETCs and the investment information required by the Commission's Order in Docket NUSF-66. The report should make clear to the Commission that CenturyLink will not request reimbursement for equipment where grant money was also received from another source.

We further remind Applicant that consistent with the Commission's ETC requirements in Title 291 Neb. Admin. Code, Chapter 5, § 009.04A3, the Commission requires all ETCs to report on the number of unfulfilled requests for broadband service on an annual basis. Applicant must notify the Commission of any requests for broadband that it was not able to fulfill in the service territory where support is provided. At a minimum, Applicant should identify the following information in its annual ETC report to the Commission: 1) the support area, 2) a description of the measures taken, and 3) the reasons for its inability to provide the requested service. CenturyLink shall file its annual report on or before June 1 of each year.

As a condition of receiving support, ETCs must offer broadband service in the supported areas that meet certain basic performance requirements. Upon completion of the project approved herein, we require Applicant to demonstrate compliance with certain minimum performance requirements. We require Applicant to provide evidence that the service deployed using NUSF support is provided as indicated in the application. Applicant must conduct testing for both speed and latency and provide results from those tests. We will afford Applicant the flexibility to measure performance across deployments in a manner that is best suited to determine the speed and latency of the service provided to end user consumers. However, Applicant must indicate how they measured broadband performance, including whether it was consistent with existing network management systems, ping tests, or other commonly available network measurement tools, a provider-developed self-testing configuration, or results from the FCC's Measuring Broadband in America (MBA) program.¹ Such information should be filed no later than 90 days following completion of the supported project(s).

In addition, an ETC has an obligation to advertise the availability of services that are supported by universal service support mechanism using media of general distribution.² To ensure that this obligation is met, the Commission requires Applicant to provide it with a copy of its marketing materials to consumers as well as a description of how the supported service was advertised.

Applicant shall be required to complete the approved projects within two (2) years from the date of this Order unless good cause is shown for a later completion date.

Broadband Commitments:

The Commission maintains broadband availability data and updates that information on at least an annual basis. As a condition of this support, CenturyLink must report broadband availability to the Commission upon request. CenturyLink must also confirm that it will not seek duplicative support through the FCC's funding mechanisms.
