BEFORE THE NEBRASKA PUBLIC SERVICE COMMISSION

In the Matter of the Nebraska)	Application No. NUSF-99.34
Public Service Commission, on)	
its own Motion, to administer)	
the Universal Service Fund)	REIMBURSEMENT ORDER
High-Cost Program: Windstream)	
Nebraska Inc., Broadband Grant)	
Request.)	Entered: May 10, 2022

BY THE COMMISSION:

By Application filed December 6, 2018, Windstream Nebraska Inc., ("Windstream") sought high-cost support from the Nebraska Universal Service Fund ("NUSF"). Notice of the application appeared in The Daily Record, Omaha, Nebraska, on December 12, 2018 and in the Hasting Tribune on December 13, 2018. No protests or interventions were filed; therefore, the Commission processed this application pursuant to its Rule of Modified Procedure.

On March 12, 2019, the Commission granted the application, awarding Windstream support in the amount of \$384,129.00 for the construction of facilities in the southwestern area of the Glenvil, Nebraska ILEC Exchange ("Glenvil project").

On September 27, 2021, Windstream notified the Commission that it seeks additional support for this project in the amount of \$61,368.82. Windstream states that this additional support is necessary due to a re-design of the project to accommodate location requirements from the county. Windstream further states that additional boring was attempted in order to cross a river but rock was hit, and an aerial solution was then required for the river crossing, resulting in trip charges for linemen and vehicles.

Windstream seeks to reallocate funding previously allocated to other NUSF-99 projects that were under budget to fund the remainder of the Glenvil project. Windstream has notified the Commission that several of its NUSF-99 projects were completed under budget, primarily due to less boring being required and less buried fiber required to complete the projects than expected. Additionally, Windstream identified one project that used aerial fiber rather than buried fiber, one project in which there was a change in equipment design, as well as some projects that came in under budget. Windstream stated that no changes in service resulted due to the projects coming in under budget. Windstream requests that the Commission reallocate the funding previously allocated but not used for these NUSF-99 projects that were under budget to

other NUSF-99 projects that were over budget, including the above-captioned application.

Upon consideration of Windstream's request for additional support, we find it to be reasonable, with modification. Upon review of Windstream's request and supporting documentation, the Commission finds that adjustments to the request in the amount of \$6,891.09 should be made. The Commission therefore authorizes the additional reimbursement amount of \$54,477.73 for Windstream. The Commission's March 12, 2019 Order shall be modified so that the total of reimbursement for this application shall be \$438,606.73.

O R D E R

IT IS THEREFORE ORDERED by the Nebraska Public Service Commission that Windstream's request for reimbursement shall be, and is hereby, granted as set forth above.

ENTERED AND MADE EFFECTIVE at Lincoln, Nebraska, this 10th day of May, 2022.
