OPINION AND FINDINGS

BY THE COMMISSION:

By docket opened August 7, 1990, the Commission on its own motion seeks to determine the boundary between the Cozad exchange of the Cozad Telephone Company and the Gothenburg exchange of US West.

Both the Cozad Telephone Company and US West were notified of this docket and directed to propose a revised boundary which will eliminate the duplicate service area.

Both telephone companies have agreed that the area in question should be included in the Gothenburg exchange of US West and three customers, Thirty Mile Canal, Michael Penry, and Cody Peden, should be allowed to continue to receive telephone service from the Cozad exchange. If the customer moves or sells the property or business or the existing service is disconnected for any other reason then new service must be provided solely by US West, the only exception being that service may be transferred to another family member who is a member of the household at that time.

The three customers were notified of this proposal by certified mail on April 30, 1991, and given 30 days in which to request a public hearing. No response has been received.

Upon consideration of the docket and being fully advised, the Commission is of the opinion and finds that a boundary has been agreed upon by all parties which will eliminate the duplicate service area in question between the Cozad and Gothenburg exchanges. Both telephone companies should be ordered to file revised service area maps showing the area in question to be in the Gothenburg exchange and that Thirty Mile Canal, Michael Penry, and Cody Peden be grandfathered to receive service from the Cozad exchange.

ORDER

IT IS THEREFORE ORDERED by the Nebraska Public Service Commission that a boundary be determined in docket No. C-827 which will eliminate the duplicate service area in question between the Cozad and Gothenburg exchanges.
