OPINION AND FINDINGS

BY THE COMMISSION:

By docket opened August 7, 1990, the Commission on its own motion seeks to determine the boundary between the Hoskins exchange of the Pierce Telephone Company and the Norfolk exchange of US West.

Both the Pierce Telephone Company and US West were notified of this docket and directed to propose a revised boundary which will eliminate the duplicate service area.

Both telephone companies have agreed that the area in question should be included in the Hoskins exchange of the Pierce Telephone Company and one customer, Mr. Harlan Grimm, should be allowed to continue to receive telephone service from the Norfolk exchange. If the customer moves or sells the property or business or the existing service is disconnected for any other reason then new service must be provided solely by the Pierce Telephone Company, the only exception being that service may be transferred to another family member who is a member of the household at that time.

Mr. Grimm was notified of this proposal by certified mail on March 12, 1991, and given 30 days in which to request a public hearing. No response has been received.

Upon consideration of the docket and being fully advised, the Commission is of the opinion and finds that a boundary has been agreed upon by all parties which will eliminate the duplicate service area in question between the Hoskins and Norfolk exchanges. Both telephone companies should be ordered to file revised service area maps showing the area in question to be in the Hoskins exchange and that Mr. Harlan Grimm be grandfathered to receive service from the Norfolk exchange.

ORDER

IT IS THEREFORE ORDERED by the Nebraska Public Service Commission that a boundary be determined in docket No. C-853 which will eliminate the duplicate service area in question between the Hoskins and Norfolk exchanges.
