OPINION AND FINDINGS

On September 19, 1996, the Nebraska Public Service Commission ("NPSC"), on its own motion initiated Application C-1416 to investigate GTE Telephone Operations cost studies and to establish rates for interconnection, unbundled elements, transport and termination, and resale services.

Notice of the filing of the docket was published pursuant to the provisions of the Commission's Rules and Regulations. Notice of the application appeared in the Omaha Daily Record on October 7, 1996.

On October 3, 1996, GTE Midwest Incorporated ("GTE") filed a motion with the Commission seeking an order protecting GTE Nebraska's confidential information contained in GTE Nebraska's Cost Studies filed in connection with the above-entitled docket.

It is likely that proprietary and confidential information will be provided in this proceeding, and that, absent the existence of this order, a significant risk of disclosing truly confidential material to parties will exist.

As a result, no confidential information shall be made available to anyone other than the Commission. However, access to any confidential information may be authorized by GTE, solely for the purposes of this proceeding, to those persons indicated by any party as being their experts in this matter. Any disputes concerning the above shall be brought before the Commission for a ruling.
