BY THE COMMISSION:

On September 12, 2001 an application was filed by Qwest Corporation (Qwest) of Denver, Colorado, seeking approval of a LIS forecasting amendment to the MCImetro Access Transmissions Services, LLC (MCImetro) and Qwest Communications interconnection agreement approved in Application No. C-2257. Notice of the application was published in The Daily Record, Omaha, Nebraska, on September 13, 2001. No protests were filed; therefore, this application is processed pursuant to the Commission's Rule of Modified Procedure.

Pursuant to Section 252(i) of the Telecommunications Act of 1996 (the Act), Qwest and MCImetro entered into an interconnection agreement, which was approved by the Commission on April 11, 2000, in Application No. C-2257. In the current application, Qwest and MCImetro seek an amendment superseding the applicable terms regarding the provision of LIS trunk forecasts by MCImetro to Qwest currently contained in the agreement. An executed copy of the amendment is contained within the application.

The amendment does not discriminate against any telecommunications carrier that is not a party to the agreement. Furthermore, the implementation of the amendment is consistent with the public interest, convenience and necessity.

Section 252(e) of the Act requires this Commission to review negotiated interconnection agreements to ensure they comply with Sections 251 and 252(d) of the Act, as well as all applicable state laws. Using those standards, the amendment filed September 12, 2001, should be approved.
