) Entered: May 10, 2006

BY THE HEARING OFFICER:

On November 13, 2003, the Nebraska Public Service Commission (Commission) opened Docket No. C-3049 to conduct an investigation into possible solutions for extending the life of area codes 308 and 402. On November 23, 2004, the Commission petitioned the Federal Communications Commission (FCC) for authority to implement additional number conservation measures. On February 24, 2006, the FCC granted the Commission the requested authority. In an order released on March 14, 2006, the Commission found that a hearing should be held to, "establish the procedure and timeline for the implementation of mandatory thousands-block pooling in the remaining rate centers in the 402 area code."¹ The hearing was scheduled for **June 1, 2006**, and interested parties were asked to file testimony by **May 22, 2006**.

As Hearing Officer in the above-captioned docket, I hereby request that any testimony filed by interested parties include comments on the following matters:

- a. Whether mandatory thousands-block number pooling should be implemented for all the remaining rate centers in the 402 area code.
- b. If the Commission determines that number pooling should be mandatory in the 402 area code, please comment on the feasibility of the following schedule of implementation:
