The Nebraska Public Service Commission (Commission) initiated this docket to investigate consumer-billing issues in the telecommunications industry. In order to ensure that consumer billing issues were being adequately addressed, the Commission sought comment from all local exchange and interexchange carriers and any other interested parties on several issues.

Based on the information received from the above-mentioned parties the Commission believes there is no need to proceed with this investigation at this time. The Commission will continue to monitor this issue and take appropriate action if and when it is needed.
