OPINION AND FINDINGS

Upon consideration of the application, the evidence submitted, and being fully advised, the Commission is of the opinion and finds:

Global is a privately held Delaware corporation with its principle office located in Mobile, Alabama. Global is a wholly owned direct subsidiary of GTEL Holdings, Inc. Global provides managed telecommunications services to inmates in Nebraska. Global was issued a Certificate of Public Convenience and Necessity in Docket C-1501 on May 28, 1997.

Global seeks approval and authority to participate in a series of debt and related financing transactions pursuant to Neb. Rev. Stat. § 75-148, which states in pertinent part,

A common carrier may issue stock, bonds, other evidence of indebtedness, or payable at periods of more than twelve months after the date thereof, when necessary for the of acquisition property, the construction, completion, extension or improvement facilities, the improvement or maintenance of service, or the discharge or refunding of obligations if its the carrier first secures from the Commission an order authorizing such issue and the

thereof and stating that in the opinion of the Commission the use of the capital to be secured by the issue of such stock, bonds, notes, or other evidence of indebtedness is reasonably required for the purposes of the carrier.

The debt financing arrangement proposed would involve Applicant acting as a borrower in certain secured long term debt arrangements. The proposed financing arrangement would include letters of credit, revolving credit, and term loans. In addition, Applicant will grant a security interest in substantially all of its assets.

Based upon the above information, the Commission finds the application to be in the public interest and to be reasonably required for the purposes of Global Tel*Link Corporation. Therefore, the application should be granted.
