In the Matter of the) Application No. C-4639
Application of CenCom, Inc.,)
Jackson, seeking authority to)
provide facilities-based)
competitive local exchange) GRANTED
telecommunications services)
within the State of Nebraska.)
) Entered: December 17, 2013

BY THE COMMISSION:

On October 25, 2013, an application was filed by CenCom, Inc. ("CenCom" or "Applicant") of Jackson, Nebraska, seeking authority to provide facilities-based local exchange telecommunications services in the State of Nebraska. Notice of the application was published in The Daily Record, Omaha, Nebraska, on October 30, 2013. No protests were filed; therefore, this application is processed pursuant to the Commission's Rule of Modified Procedure.

O P I N I O N A N D F I N D I N G S

Applicant is a corporation organized and existing under the laws of the State of Nebraska. Applicant's parent company and sole owner is Northeast Nebraska Telephone Company which has been engaged in the provision of telecommunications services in Nebraska since 1955. Applicant currently holds a certificate of public convenience and necessity issued by the Commission to provide intrastate interexchange telecommunications services in Nebraska. However, Applicant does not currently transact business in any other state. Neither Applicant nor Applicant's sole owner has been involved in a formal complaint or other investigatory or enforcement proceeding commenced within the last two (2) years.

Applicant proposes to offer a full array of local exchange services as well as special access service. Applicant does not anticipate requiring advance payments or deposits from its subscribers. Applicant requests authority to provide telecommunications services through a combination of its own facilities, facilities leased from incumbent local exchange carriers and resold services. Applicant seeks statewide authority to provide local exchange and exchange access service in the State of Nebraska.

Applicant states that in conjunction with its parent company, it is technologically, managerially and financially capable of providing telecommunications services, and is a fit and proper entity to be issued a certificate of public

convenience and necessity to provide the telecommunications services in Nebraska. Applicant will draw on the management resources of its parent company and certain consultants for planning, marketing, network, service development, provisioning and delivery, and legal and regulatory assistance. In further support of its qualifications, Applicant provided its financial statements for the past three (3) years.

Applicant states a grant of this application will serve the public interest because the public will benefit from greater consumer choice created through the broadening of telecommunications service alternatives and affordable rates maintained by competition.

The Commission considers this application for authority in light of the following criteria and standards established in the Commission's telecommunications rules:

- (a) Whether the Applicant has provided the information required by the Commission;
- (b) Whether the Applicant has provided a performance bond, if required;
- (c) Whether the Applicant possesses adequate financial resources to provide the proposed service;
- (d) Whether the Applicant possesses adequate technical competence and resources to provide the proposed service;
- (e) Whether the Applicant possesses adequate managerial competence to provide the proposed service; and
- (f) Whether granting the Applicant a certificate preserves and advances universal service, protects the public safety and welfare, ensures the continued quality of telecommunications services and safeguards the rights of consumers, pursuant to Section 253(b) of the Act.

Applicant has demonstrated that it meets the standards of financial, technical, and managerial competence and all other criteria necessary to provide local exchange services in the state of Nebraska.

These opinions and findings carry no precedential value other than establishing minimum standards and criteria to apply when considering applications to provide local exchange services. All telecommunications carriers seeking such a

certificate must demonstrate that they meet, at a minimum, the standards and criteria set forth herein.

Before the Applicant is allowed to provide local exchange service to its users, it must either:

1. Through negotiation or arbitration, reach an interconnection/resale agreement with the pertinent incumbent local exchange carrier and receive Commission approval of the interconnection/resale agreement; or
2. In the event a certified local exchange carrier provides a wholesale tariff, purchase rates from that tariff, file its own tariff and receive Commission approval of its tariff.

This order does not terminate, waive or in any manner diminish the exemptions and protections created by the Act for rural carriers, as defined by the Act. This order does not address the issue of the rural local exchange carrier exemption under the Act. Rural exemptions may be terminated, suspended or modified only as provided in Section 251(f) of the Act.

Prior to providing service in any area in the State of Nebraska, Applicant must file tariffs in accordance with the provisions of Section 002.21 of the Neb. Admin. R. & Regs. Title 291, Ch. 5.

Upon the offering of local exchange services in the State of Nebraska, Applicant would be subject to the same laws, rules and regulations, both federal and state (including any laws, rules or regulations regarding universal service, restrictions on joint marketing and quality of service), applicable to any other local exchange company except those obligations imposed on ILECs pursuant to Section 251(c) of the Act.

O R D E R

IT IS THEREFORE ORDERED by the Nebraska Public Service Commission that Application No. C-4639 be, and hereby is, granted.

IT IS FURTHER ORDERED that Applicant is obligated to abide by the same laws, rules and regulations, both federal and state (including any laws, rules or regulations regarding universal service, restrictions on joint marketing and quality of service), applicable to any other local exchange carriers, except obligations imposed on incumbent local exchange carriers pursuant to Section 251(c) of the Act.

IT IS FURTHER ORDERED that, to the extent Applicant provides access line service as referenced in the Telecommunications Relay System Act, Neb. Rev. Stat. §§ 86-301 through 86-315(Relay Act) and defined in Neb. Admin. R. & Reg. Title 291, Ch. 5 § 001.01B, the Applicant shall collect from its subscribers a surcharge (Relay Surcharge) pursuant to the relay act and the Commission's annual orders establishing the amount of the surcharge, and shall remit to the Commission the proceeds from the relay surcharge as provided by the Relay Act.

IT IS FURTHER ORDERED that the Applicant comply with all necessary statutes and Commission Rules and Regulations as they pertain to the Nebraska Universal Service Fund.

IT IS FURTHER ORDERED that Applicant shall file, in accordance with the applicable statutes, on or before April 30 of each year, an annual report with the Commission consisting of: (a) a copy of any report filed with the Federal Communications Commission; (b) a copy of any annual report to stockholders; and (c) a copy of the latest Form 10-K filed with the Securities and Exchange Commission. If such reports are unavailable, Applicant shall file a balance sheet and income statement for the previous year of operation, and for the State of Nebraska on a combined interstate-intrastate basis, the investment in the telephone plant and equipment located within the state, accumulated depreciation thereon, operating revenues, operating expenses and taxes.

IT IS FURTHER ORDERED that within 30 days from the entry of this order that the Applicant file a tariff and pay appropriate filing fees with the Commission as required by state statutes and the Commission's regulations.

IT IS FINALLY ORDERED that this order be, and hereby is, made the Commission's official Certificate of Public Convenience and Necessity to the Applicant to provide facilities-based and resold local exchange telecommunications services in the State of Nebraska.
