Emergency action is requested.

The Applicant received authority to operate from the Commission under Permit No. B-1751 on March 30, 2010. The Applicant is establishing its rates for use in this certificate.

The Applicant represents to the Commission that the proposed rates are based upon anticipated operating costs and expenses. The rates are similar and competitive to those being charged by companies providing similar services.

In applications such as these, the Commission must find that an emergency situation exists. Such a situation exists in this application as the Applicant cannot begin operations under its certificate as granted until the rates are approved.

Upon consideration of the application and being fully advised in the premises, the Commission is of the opinion and finds that the application should be granted on an emergency basis effective May 28, 2010.
