Promotions and Discounts:

Jone-Z party buses may use any type of internet marketing or local marketing strategies to attract new business; including offering discounted rates as long as these promotions have a specific end date.

Emergency action is requested.

Applicant is a certificated common carrier which holds Certificate B-1695. The certificate authorizes the transportation of passengers and their baggage in charter and special party service by bus between points in Douglas, Sarpy, Cass, Saunders, Lancaster, Dodge and Washington counties and between points in said counties over irregular routes. HHS designation: No. The Certificate is restricted against the transportation of railroad train crews and their baggage. Service is restricted against the operation of luxury limousine service by limousine or bus, and forward facing seat coaches or shuttles.

According to the Applicant, the proposed rates are based on market conditions as well as vehicle costs, depreciation, administration, insurance and other expenses related to operating a transportation business. The proposed rates are believed to be sufficient to produce a reasonable profit and still maintain a quality service.

The rates reflect a change in the reduction of the rates for Sunday through Thursday, an increase in the rates for Friday and Saturday bookings, and a request for the establishment of various discount programs in an effort to develop more business.

Commission staff, in reviewing the application, discussed with the Applicant several issues related to the application. Some of the proposed discounts are not definite or certain enough to be effectively regulated. Discount programs have been required to have more certainty as to their offer and their duration. After discussions with the Applicant, the Applicant agreed several

modifications regarding the proposed discount programs as set forth below.

The Commission finds that the coupon program needs to be placed in media in advance of the time period that the coupon will be in effect, and that any given coupon program be of some duration detailed in the promotion. These conditions are placed upon the program so that the program does not become in effect a permanent fifty percent discount off of the Applicants rates, as well as for consumer certainty as to when and what trips the coupon is applicable to.

In order to grant an application on an emergency basis, the Commission must find that an emergency basis exists. The Commission finds that the Applicant should be placed in a position to take advantage of its proposed rates as soon as possible so that its operations are not impaired due to the current market conditions that prompted the application.

The rates proposed are reasonable for the type of service provided. The application is filed in compliance with Sections 75-308 (Rates) and 75-121 (Emergency rate orders), R.R.S. 2010 and the Commission Rules.

Upon consideration of the application and being fully advised in the premises, the Commission is of the opinion and finds that the application should be granted as modified on an emergency basis effective November 9, 2007.
