In applications such as these, the Commission must find that an emergency situation exists. Such a situation exists in this application as the Applicant cannot begin operations under its certificate as granted until the rates are approved. Therefore, the Commission finds that an emergency basis exists that allows the Commission to grant the application on an emergency basis. The Commission further finds that the proposed rates are reasonable.

Upon consideration of the application and being fully advised in the premises, the Commission is of the opinion and finds that the application should be granted on an emergency basis effective August 22, 2014.
