On March 2, 2016, Alpha Life Improvement Services, Omaha (Applicant), filed an application for authority to establish its rates as follows:

Description	Proposed
Non-emergency Transportation (per one way trip)	\$44.99

Non-emergency Transportation per mile	\$ 1.99
---------------------------------------	---------

Emergency action is requested.

Applicant is a certificated carrier which holds Certificate No. B-1921. The certificate authorizes the transportation of passengers by passenger van and vans specially modified according to the Americans with Disabilities Act between points in Douglas, Sarpy, Washington, and Cass counties over irregular routes. RESTRICTION: The transportation of railroad train crews and their baggage is not authorized. HHS Designation: No. The Certificate was granted on January 12, 2016.

Applicant is establishing its rates for use in this certificate. The Commission finds that the proposed rates are reasonable.

In applications such as these, the Commission must find that an emergency situation exists. Such an emergency exists in this application as Applicant cannot begin operations under its certificate as granted until the rates are approved. Therefore, the Commission finds that an emergency basis exists that allows the Commission to grant the application on an emergency basis.

Upon consideration of the application and being fully advised in the premises, the Commission is of the opinion and finds that the application should be granted on an emergency basis effective March 18, 2016.
