CHAPTER 2-000 DEFINITIONS

Activities of Daily Living means the proficiencies which allow individuals to live successfully in non-institutional settings. Development of daily living skills involves an organized service which provides skill building needed by the consumer in such areas as personal hygiene, self-care, interpersonal skills (including interpersonal negotiation skills), self-direction, meal preparation and nutrition, as well as other related areas required to successfully live independently in the community. This may also be referred to as “basic daily living skills”.

Adult with severe and persistent mental illness means an individual who:

1. Is age 19 and older;
2. Has a primary diagnosis of schizophrenia, major affective disorder, or other major mental illness under the current edition of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association. Developmental Disorders or Psychoactive Substance Use Disorders may be included if they co-occur with the primary mental illnesses listed above;
3. Is at significant risk of continuing in a pattern of either institutionalization or living in a severely dysfunctional way if needed mental health services are not provided, and this pattern has existed for 12 months or longer or is likely to endure for 12 months or longer; and
4. Has a degree of limitation that seriously interferes with the individual's ability to function independently in an appropriate and effective manner, as demonstrated by functional impairments which substantially interferes with or limits at least two of three areas:
   a. Vocational/educational;
   b. Social skills; or
   c. Activities of daily living.

American Society of Addiction Medicine Criteria (ASAM) means the most current edition of the American Society of Addiction Medicine Criteria as published by the American Society of Addiction Medicine.
Assessment means the process that a program completes with each consumer to gather information and documentation needed to identify the individual’s status, strengths, preferences, and needs in order to develop an Individual Treatment, Rehabilitation, and Recovery Plan. The assessment process must include:

1. Identification/Determination of the consumer’s status, strengths, needs, problem(s), resiliencies, experiences (including past trauma), cultural background, and preferences;
2. Identification of the various people and situations involved in the individual’s life; and
3. The goals that the consumer wants to accomplish in receiving services.

Behavioral Health Disorder means mental illness or alcoholism, drug misuse, or other addictive disorder.

Behavioral Health Adult Service Definitions means a set of standards that specify requirements for services funded by the Division of Behavioral Health. These standards are attached and incorporated in these regulations by this reference and are posted on the Department’s website. These service definitions will be very close to the Division of Medicaid and Long-Term Care’s service definitions, but there may be some differences.

Behavioral Health Region means a behavioral health geographic region established by Neb. Rev. Stat. §71-807. May also be referred to as a “region”.

Behavioral Health Services means services, including, but not limited to, consumer-provided services, support services, inpatient and outpatient services, and residential and nonresidential services, provided for the prevention, diagnosis, and treatment of behavioral health disorders and the rehabilitation and recovery of persons with behavioral health disorders.

Community-Based Behavioral Health Services or Community-Based Services means behavioral health services that are not provided at a Regional Center.

Confidentiality means the legal requirement and ethical principle that a provider or a program will not reveal any information disclosed during the course of service provision. Information received by program staff or maintained in the service records which deals with the identity, diagnosis, prognosis, treatment, rehabilitation, or of any consumer is confidential and must be disclosed only with the written consent of the consumer, the consumer’s legal guardian, by order of a court of competent jurisdiction, or as otherwise required by state and federal law.

Consumer means an individual who has lived experience with a mental illness, substance use disorder, or other addiction.

Cultural Competence means an integrated pattern of human behavior, which includes but is not limited to thought, communication, languages, beliefs, values, practices, customs, courtesies, rituals, manners of interacting, roles, relationships, and expected behaviors related to a racial, ethnic, religious, social, disability or political group, and the ability to transmit the above to succeeding generations. The capacity of an organization and its personnel to communicate effectively and convey information in a manner that is easily understood by diverse audiences.
Department means the Nebraska Department of Health and Human Services.

Diagnostic and Statistical Manual (DSM) means the most current edition of the Diagnostic and Statistical Manual of Mental Disorders as published by the American Psychiatric Association (APA).

Director means the Director of Behavioral Health.

Division means the Division of Behavioral Health of the Department of Health and Human Services.

Documentation means the provision of written, dated, and where applicable, signed evidence to substantiate performance as part of an organized system of official records.

EPC (Emergency Protective Custody) means a situation in which an individual who is believed to be mentally ill and dangerous or a dangerous sex offender and for whom there is a substantial risk of serious harm to others or to oneself is taken into custody by a law enforcement officer and admitted to an appropriate facility for a limited period of time.

Functional Impairment means serious limitations an individual has which substantially interfere with or limit role functioning in major life activities, as determined through an assessment by qualified personnel. In adults (age 19 and older), it is the degree of limitation that seriously interferes with the individual's ability to function independently in an appropriate and effective manner in two of three functional areas of (1) Vocational/educational, (2) Social Skills, or (3) Activities of Daily Living.

Functional Limitations in Activities of Daily Living means an inability to consistently perform the range of practical daily living tasks required for basic adult functioning in the community in three of the five following areas:

1. Grooming, hygiene, washing of clothes, and meeting nutritional needs;
2. Care of personal business affairs;
3. Transportation and care of residence;
4. Procurement of medical, legal, or housing services; or
5. Recognition and avoidance of common dangers or hazards to self and possessions.

Functional Limitations in Social Skills means (1) repeated inappropriate or inadequate social behavior or an ability to behave appropriately or adequately only with extensive or consistent support or coaching or only in special contexts or situation, such as social groups organized by treatment staff; or (2) consistent participation in adult activities only with extensive support or coaching and when involvement is mostly limited to special activities established for persons with behavioral health diagnoses; or (3) a history of dangerousness to self or others.

Functional Limitations in Vocational/Educational means (1) an inability to be consistently employed or an ability to be employed only with extensive supports, except that a person who can work but is recurrently unemployed because of acute episodes of mental illness is considered vocationally impaired; (2) deterioration or decompensation resulting in an inability to establish or pursue educational goals within a normal time frame or without extensive supports; (3) an inability
to consistently and independently carry out home management tasks, including household meal preparation, washing clothes, budgeting, and child care tasks and responsibilities.

HIPAA means the Health Insurance Portability and Accountability Act.

Medical Assistance Program means the program established pursuant to the Medical Assistance Act, also known as Medicaid.

National Accreditation means meeting the standards set by The Joint Commission (TJC), the Commission on Accreditation of Rehabilitation Facilities (CARF), the Council on Accreditation (COA), or other nationally recognized accreditation organization(s) approved by the Director.

Peer Support Services means individualized, recovery-focused services based on a mutual relationship between consumers that allows a consumer the opportunity to learn to manage his/her own recovery and advocacy process. Activities of Peer Support serve to demonstrate that recovery and wellness are possible, sharing of wellness planning tools, group facilitation, empowering the individual with advocacy and self-help skills and supports, relaxation response training, engaging individuals with natural supports, understanding the importance of shared decision-making, self-advocacy, communication, creating relationships of quality, and education of training staff about the importance of the individual's needs to enhance wellness and recovery. Unique services include but are not limited to peer perspective crisis prevention, smoking cessation, peer-run respite, support groups, relaxation response training, and warm lines.

Person-Centered Care means services and supports are designed around the needs, preferences and strengths of an individual.

Prevention Systems means, for the purpose of behavioral health services, purposeful, effective, and sustained partnerships of agencies, organizations, and individuals committed to preventing substance use disorder, mental and addictive disorders, and related societal problems. Prevention systems are designed to operate at the community level embracing the local culture while leading the development of strong, sustainable, community-based prevention activities focused on pro-social and normative changes. Prevention system activities seek to produce sustained outcomes in preventing the onset and reducing the progression of substance use disorder and mental illness and related consequences among communities and building prevention capacity and infrastructure at the State/Tribal and local level.

Provider means an organization or individual that has contracted with either one of the Regional Behavioral Health Authorities or the Division to provide publicly-funded behavioral health services to consumers.

Psychological Trauma means events or experiences that confront the person directly or as a witness where there exists an immediate perceived threat of death, extreme human suffering, severe bodily harm or injury, coercive exploitation or harassment, or sexual violation. Response to traumatic event involves intense fear, helplessness, or horror. Psychological trauma has a direct impact on the brain, body, and stress response system. This disrupts the cognitive, emotional, physical, spiritual, and relational functioning. Persons with severe and persistent behavioral health problems, including mental illness, and/or substance use disorders, often have experienced trauma. Many suffer from post-traumatic symptoms which exacerbate their other
behavioral health problems, impair their psychosocial functioning, and interfere with the quality of their lives. Traumatic events may include rape, physical, emotional, or sexual abuse, war combat, urban street violence, torture, motor vehicle accidents, natural disasters and violence associated with crime.

Public Behavioral Health System means the statewide array of behavioral health services for children and adults provided by the public sector or private sector and supported in whole or in part with funding received and administered by the Department, including behavioral health services provided under the Medical Assistance Program (Medicaid).

Recovery means a process of change through which individuals improve their health and wellness, live a self-directed life, and strive to reach their full potential.

Recovery-Oriented System of Care (ROSC) means a coordinated network of recovery-oriented and person-centered community-based services and supports that is person-centered and builds on the strengths and resilience of individuals, families, and communities to achieve improved health, wellness, and quality of life.

Regional Behavioral Health Authority (RBHA) means the regional administrative entity responsibility for each behavioral health region.

Regional Behavioral Health Authority Network means those providers who have contracted with a regional behavioral health authority to form a network to provide behavioral health services in that region.

Regional Center means one of the state hospitals for persons with mental illness as designated in Neb. Rev. Stat. § 83-305.

Regional Center Behavioral Health Services or Regional Center Services means recovery-oriented and person-centered behavioral health services provided at a Regional Center.

Regional Governing Board means an entity established in each behavioral health region by the counties which governs the regional behavioral health authority (RBHA). The board consists of one county board member from each county in the region. Each regional governing board appoints a regional administrator who is responsible for the administration and management of the RBHA. The regional governing board of each RBHA, in consultation with all counties in the region, determines the amount of funding to be provided by each county under Neb. Rev. Stat. § 71-808.

Rehabilitation means services to promote recovery, full community integration and improved quality of life for persons who have been diagnosed with any mental health, substance use, or co-occurring condition that seriously impairs their ability to lead meaningful lives. Rehabilitation services are collaborative, consumer-directed and individualized. They focus on helping individuals develop skills and access resources needed to increase their capacity to be successful and satisfied in the living, working, learning, and social environments of their choice.

Screening means the process by which the service is appropriate for the consumer and consumer is determined appropriate and eligible for admission to a particular program.
Secondary Consumer means a family member of a consumer who has lived experience with a substance use disorder, mental illness, or other addiction.

Strength-based means an ongoing approach, working with consumers, to identify the positive resources and abilities that an individual possesses. These strengths are then built upon by developing strategies to address the identified needs in order to achieve a defined outcome.

Subcontractor means an individual or business firm that contracts to perform part or all of the provider’s/program’s obligations under a primary contract.

System Management means the managed care vendor contracted with the Division of Behavioral Health.

Telehealth means the delivery of health-related services and information via telecommunication technologies.

Trauma-informed Services means services that are informed about, and sensitive to, trauma-related issues present in survivors; but they need not be specifically designed to treat symptoms or syndromes related to sexual or physical abuse or other trauma. Trauma-informed services are provided based on an understanding of the vulnerabilities or triggers of trauma survivors that traditional service delivery approaches may exacerbate, so that these services and programs can be more supportive and avoid re-traumatization. Trauma-informed services are designed to include a basic understanding of how trauma impacts the life of an individual seeking services.

Trauma-informed System means one in which all components of a given service system have been considered and evaluated in the light of a basic understanding of the role that violence plays in the lives of people seeking mental health and addictions services. A ‘trauma informed’ system uses that understanding to design service systems that accommodate the vulnerabilities of trauma survivors and allows services to be delivered in a way that will avoid re-traumatization and will facilitate consumer participation in treatment. It also requires, to the extent possible, closely knit collaborative relationships with other public sector service systems serving these clients and the local network of private practitioners with particular clinical expertise in traumatology” (Harris & Fallot, 2001).

Treatment means recovery-oriented and person-centered clinical evaluations and/or interventions provided to consumers to ameliorate disability or discomfort and/or reduce signs and symptoms of a behavioral health diagnosis.
