4. Personal Assistance/Care Services.

Rates for each of the above listed services are established as provided in the Nebraska State Medicaid Plan on the basis of the actual cost to public school districts in each of the following areas, respectively:

1. Omaha Public Schools (Douglas County School District #001); and
2. Lincoln Public Schools (Lancaster County School District #001); and
3. All other public school districts in Nebraska (average aggregate cost of each of the services listed above).

These rates are established based on the Department's review of costs that are consistent with efficiency, economy, and quality of care. The State's review and update of these rates will consider cost information related to therapists' salaries and benefits; support materials and supplies; travel; and indirect costs. The principles and standards for determining reasonable and adequate costs associated with the provision of services are outlined in the Office of Management and Budget (OMB) Circular A-87, "Cost Principles for State and Local Governments".
